ANTHROPOLOGY, MA

The Department of Anthropology has offered an award-winning master’s degree program since the early 1950s. This is a research degree offered in all four fields of anthropology.

With strong training in research methods, application, and theory, or MA program is appropriate both for students intending to continue on the PhD, and for those who will enter careers that require only the master’s. For this reason, we do not consider our program a “terminal master’s degree.” Roughly half of the student admitted into our PhD program each year are graduates of our own MA program.

Admission Requirements

Applicants for graduate work in Anthropology should submit a statement of purpose that outlines, identifies, and explains the following: (1) One personal and one professional goal and how it relates to anthropology, (2) Why the UA Anthropology program is best suited to help applicants achieve those goals, (3) Two UA Anthropology faculty members who are suited to mentor the applicants, and (4) Any gaps or inconsistencies in the applicant’s academic record (it is acceptable to have them, but they should be explained). All applicants must meet the general guidelines for admission to the Graduate School. These include a grade point average of at least 3.0 on a 4.0 point scale for the last 60 semester hours in a degree program, a completed online application, official transcripts for all undergraduate/graduate work, and three letters of recommendation from individuals (typically professors) who are in a position to evaluate the applicant’s academic potential to achieve the outlined goals. Students may submit additional supporting materials (e.g., a curriculum vita, writing sample) if they wish. Additional information for applicants can be found here.

See the Admission Criteria section of this catalog for more information.

General Degree Requirements

It is expected that, in their first Fall semester, all MA students will enroll in ANT 600 Research Methods and ANT 641 Culture and/or ANT 670 Prin Biological Anthropology. In the Spring semester of the first year, MA students are expected to enroll in ANT 501 Linguistic Anthropology and/or ANT 625 Survey History Archaeology. The goal of the first year is to establish a foundation of knowledge in the discipline and in basic research design.

For the MA degree, each student must complete a minimum of 30 credit hours in courses numbered 500 or above. Without special prior approval of the student’s advisor, the student’s committee, and the director of graduate studies, neither ANT 598 Individual Investigations nor ANT 599 Thesis Research will count toward the 30 hours.

Total Hours 30
Take three of the following courses:

- ANT 501 Linguistic Anthropology
- ANT 625 Survey History Archaeology
- ANT 641 Culture
- ANT 670 Prin Biocultural Anthropology

**Elective Courses**

All master's students must take at least four elective courses at the 500 level or above. The sample courses listed below do not represent an exhaustive list. Furthermore, students are encouraged to consider relevant outside courses per approval of the student's primary adviser and director of graduate studies.

- ANT 502 Health Inequities
- ANT 505 Culture, Mind, and Behavior
- ANT 506 Biocultural Bodies
- ANT 509 Ancient Maya Civilizations
- ANT 510 Ethnography of Communication
- ANT 511 Culture, Health, & Healing
- ANT 512 Anthropology of Europe
- ANT 513 Peoples of Latin America
- ANT 514 Peoples of Africa
- ANT 519 Myth, Ritual, and Magic
- ANT 521 Ethnography
- ANT 523 Legal Anthropology
- ANT 525 GIS for Archaeologists
- ANT 526 Arch East North Amer
- ANT 528 Analytical Archaeology
- ANT 538 Anthropology of Art
- ANT 543 Advanced Field Archaeology
- ANT 544 Anthropology and Cemeteries
- ANT 545 Historical Archaeology
- ANT 550 Problems In Anthropology
- ANT 562 Ancient Andean Civilizations
- ANT 563 Anthro of Landscape & Ecology
- ANT 564 Paleoethnobotany
- ANT 568 Ceramics for the Archaeologist
- ANT 571 Fossil Humans and Evolution
- ANT 573 Human Osteology
- ANT 574 Neuroanthropology
- ANT 578 Anthro of Human Development
- ANT 579 Human Paecolopathology
- ANT 581 Anthropology is Elemental

**Total Hours** 30

For the PhD program each student must complete 48 credit hours in courses numbered 500 or above. No more than 24 hours can be transferred from an MA program to the PhD program. A reading facility in one foreign language appropriate to the research topic must be demonstrated. Knowledge of quantitative methods and other advanced research skills must also be obtained through the required seminar ANT 601 Advanced Research Methods. Additional requirements include two core courses, each of which is specific to the doctoral tracks.

**Plan of Study**

Early in the graduate program, each student consults with a faculty adviser or major professor to select courses, discuss when and by which method the doctoral residency requirement will be completed, discuss research interests, and so forth. Then a Plan of Study is prepared and submitted to the Graduate School.

The PhD Plan of Study is available at the Graduate School website. All doctoral students must have a completed Plan of Study approved by the Graduate School no later than the semester during which the student will complete 30 semester hours of UA and/or transfer credit for the doctoral degree. Otherwise, a “hold” may be placed on future registrations.

If later there are changes in the Plan of Study, the student simply submits an amended Plan to the Graduate School at the time that the form for Admission to Candidacy for Doctoral Degree is submitted.

A preliminary examination must be passed before undertaking dissertation research. Six to 12 months of ethnographic or archaeological field work is expected, followed by analysis and the writing of the dissertation. The dissertation itself will then be presented and defended before the student’s committee and other interested faculty.

**Master's Degrees**

The primary purpose of master's degree programs is to provide students with subject matter at an advanced level in their fields of study. Master's degrees are designed to assist students either to continue their graduate studies or to meet the goals of their professions. In most cases, master's programs also help students become familiar with methods of independent investigation.

**Program Requirements**

Two plans are offered for the master’s degree:

**Plan I.** Candidates for the master's degree under Plan I must earn a minimum of 24 semester hours of credit in coursework plus earn a minimum of 6 additional hours of thesis research hours, for a total of 30 hours.

**Plan II.** Candidates for the master's degree under Plan II must earn a minimum of 30 semester hours of coursework credit and pass the comprehensive examination or complete a culminating or “capstone experience” as described under the Comprehensive Examinations section below.

Both plans require a minimum of 18 semester hours in the major subject. With the approval of the major department, the remainder of the coursework may be completed in either the major or a related field.

In some divisions and in many departments of the University, candidates are required to do their work under Plan I. Candidates working under Plan II may be required to participate successfully in seminar or problem courses that will give them an acquaintance with the methods of research and an appreciation of the place and function of original investigation in the field.
Residency Requirements
A student’s program at the master’s level must provide sufficient association with the resident faculty to permit individual evaluation of the student’s capabilities and achievements.

Graduate Credit
A student must be admitted to the Graduate School and must register as a graduate student in order to receive graduate credit. Approval for graduate registration must be obtained from program advisors prior to registration.

Graduate Credit for Noncredit Experiences
All course credit used toward a UA graduate degree must be taught at the graduate level. No graduate credit may be earned by correspondence study or for experiential learning not conducted under the direct supervision of graduate faculty of The University of Alabama. UA does not offer graduate credit for noncredit workshops, seminars, continuing education experiences, professional development, internships, work/life experience, and so forth.

Transfer of Credit
Courses of full graduate-level credit earned in a regionally accredited institution where a student was enrolled in the graduate school may be submitted for review for inclusion in a master’s degree program. Evaluation of credit for transfer will not be made until after the student has enrolled in the Graduate School of The University of Alabama. Acceptance of credit requires the approval of the student’s advisory committee and the dean of the Graduate School. Only courses in which a student earned a “B” grade or better may be transferred. Thesis Research (599) may not be transferred in from an outside institution.

In some cases, foreign educational credentials may not meet the Graduate School’s criteria for transfer of credit. It may be necessary for students in this situation to secure an evaluation of their credentials from World Education Services Inc. (WES), an external foreign credential evaluation service. Additional information on their services can be found at their website.

A student initiates at the Graduate School’s website a Request for Transfer of Graduate Credit earned at another institution. It is also the student’s responsibility to assure that the Graduate School receives an official transcript from the other institution where the transfer credit has been requested, well in advance of the final semester.

With the approval of the student’s department and the dean of the Graduate School, the greater of 12 hours or 25 percent of the required coursework for a master’s degree may be transferred from another institution. The approved transferred coursework must be earned during the six-year period (18 fall, spring, and summer semesters) preceding the semester of admission to the UA master’s program. Departments may have more restrictive timelines. Revalidation or recertification of graduate credits that will be more than 18 semesters old at the time of UA master’s program completion is not an option.

Please note that some departments allow fewer than 12 hours of graduate transfer credit. Be sure to check with your department’s graduate coordinator regarding your department’s transfer policy.

400-Level Courses
A maximum of 6 semester hours of 400-level course credit may be accepted for a master’s degree program. The department needs to submit the Approval of 400-Level Course Work for Master’s Credit through the UA DocuSign system in myBama and is approved by the Graduate School prior to the semester in which the 400-level coursework will be taken.

Time Limit
All requirements for the master’s degree must be completed during the six years (18 fall, spring, and summer semesters) immediately preceding the date on which the degree is to be awarded. There is no provision for an extension of the time limit beyond six years for master’s students.

Thesis
A thesis evidencing research capacity, independent thought, and the ability to interpret materials is required of all master’s degree candidates who pursue Plan I. The subject chosen must be in the major field and must be approved by the graduate committee of the major department or school and by the head of the student’s major department or division. A thesis committee must consist of at least three members appointed by the dean of the Graduate School. Students set up their committee through the Graduate Academic Activities portal on the Graduate School website. The request normally is made as soon as the successful defense of the thesis proposal has been completed. All members of a thesis committee must be members of the Graduate Faculty. The Committee Chair must be a full or associate member of the Graduate Faculty. One member must be from outside the student’s major department. The majority of the thesis committee must be full-time regular University of Alabama faculty. If the outside member is not a full or associate member of the UA Graduate Faculty (e.g., a highly qualified person from another university, a business, or industry), the graduate dean needs to appoint that member by approving Affiliate Graduate Faculty status for the specific purpose of serving on the student’s thesis committee. Unless there are extraordinary circumstances meriting approval by the graduate dean before the final oral defense of the thesis, all members of the thesis committee must attend the defense.

The candidate must give members of the examining committee a minimum of two weeks to read the thesis before the date of the final oral examination. All members must agree that the student is ready for the final oral thesis defense. A final oral thesis defense is required of all students completing a thesis. All members of the thesis committee must be members of the UA graduate faculty and must attend the final oral thesis defense unless there are extraordinary circumstances warranting the graduate dean’s approval of the absence prior to the defense meeting.

The final oral thesis defense is the culminating experience in the master’s program. As such, all members of the thesis committee are expected to attend and participate in real time. Virtual attendance via interactive video or teleconference is permitted for off-campus external committee members, but the student and Tuscaloosa campus faculty should attend in person unless extraordinary circumstances dictate the need for virtual attendance. In circumstances where virtual participation is necessary, all participants must follow the Virtual Participation guidelines found below.

Virtual Participation
Scope and Goals
All members of a student’s graduate committee are expected to attend and participate, usually in person, in any oral examination as part of the student’s graduate (Master’s or Doctoral) degree program. Traditionally, oral examinations are conducted with the student meeting their committee while gathered in one physical location on campus. However, the need occasionally arises for virtual participation in the oral examination. In these cases, graduate programs must ensure adherence to the following if any graduate-level oral examination
involving the student’s entire thesis/dissertation committee includes virtual participation.

- The student’s consent must be sought and obtained in advance of conducting the oral examination with virtual participants.
- Virtual participation by committee members must include both audio and visual capability so that:
  - each committee member can hear the student and view the student, any presentation slides, and any demonstrations;
  - the student can hear and view each committee member.
- All committee members must participate interactively and in real-time for the entire examination, including any preparatory discussion leading up to it, the presentation itself, its discussion and evaluation.

The following sections provide detail on the technical and attendance requirements for an oral examination with virtual participation. Departments and programs may enforce stricter guidelines than those outlined, including an on-campus-only policy if deemed necessary and appropriate.

Technical Requirements

Real-time and fully interactive audio and video communications must be maintained throughout the examination and any related discussion. The audio/video communications facilities must allow the student and all committee members to see and hear each other during the entire examination. There must be adequate provision for the transmission of text, graphics, or writings referenced or generated during the examination (e.g., slides, whiteboard). The use of audio-only communications is not permitted.

In case of technical difficulties or technology failure, the committee will decide whether to continue the examination once the difficulty is resolved, or to cancel the examination and reschedule it for a later date, without prejudice to the student.

If the student or any committee member(s) have a disability that will be impacted by virtual participation, reasonable accommodations should be provided.

Attendance Requirements: campus-based programs

Programs should ensure that students are advised about virtual participation guidelines related to an oral examination, including reference to these guidelines as well as any other program-specific requirements.

It is generally expected that members of a graduate student’s committee be physically present with the student for each oral committee examination. However, an oral examination may have virtually participating committee members according to the following rules:

- Any one member of the graduate student’s committee (excluding the chair / advisor) can participate at a distance without seeking further authorization.
- The committee chair will be allowed to participate at a distance only if rescheduling the oral examination for a time when they are on campus would cause hardship to the student. In this case, the committee chair should submit a petition to the Dean of the Graduate School, outlining the reasons leading to the request.
- Similarly, a petition from the committee chair to the Dean of the Graduate School is also required if more than one committee member is to participate at a distance. Such petitions will only be considered if rescheduling the oral examination to a time when only one member of the committee would be participating at a distance would cause significant hardship to the student, as outlined in the petition.

All committee members participating virtually must be able to fully interact in the oral examination via audio and video capability; participation by viewing a recording of the oral examination is specifically prohibited. All members of the committee, on- or off-site, must participate in the evaluation of the examination; provisions must be made to record their vote and collect their signatures as necessary.

Student participation at a distance in graduate oral examinations involving their committee is generally not allowed for campus-based graduate programs. However, the committee chair and/or the graduate program director, in agreement with the student, may draft a petition to seek permission from the Dean of the Graduate School to conduct such an oral examination. This arrangement will only be considered if the committee chair agrees to it, and if rescheduling the oral examination for a time when the student is on campus would cause great hardship to the student; the petition should clearly outline the extenuating circumstances leading to this need.

Attendance Requirements: online or hybrid programs

An online graduate program is defined as a program in which no aspect of the degree program occurs on-campus, including oral examinations. A hybrid program is defined as a program which has both online and on-campus elements.

For online and hybrid programs that handle oral examinations in an online setting, all committee members as well as the student may participate virtually in the oral examination. However, these programs must fully adhere to the guidelines outlined in the Technical Requirements section above for any oral examination involving the entire committee.

Hybrid programs that require oral examinations to take place on campus must adhere to the guidelines set forth for campus-based programs.

Article Style vs. Journal Format

Article Style.

At the doctoral level, “article-style dissertations” are unified works that include several distinct but related studies of research or creative activity, each of which is of publishable quality. The University does not permit an “article-style thesis” to be presented for a master’s degree.

Journal Format.

A “journal-format thesis” is acceptable. Such a thesis follows the format of a particular journal in which the student and advisor want the thesis to be published. To prepare a journal-format thesis, the student uses the journal’s “information for authors” or similarly titled guidelines in conjunction with the Graduate School’s Student Guide to Preparing Electronic Theses and Dissertations.

All theses are submitted electronically rather than on paper. See the Graduate School’s homepage for a link to information on Electronic Theses and Dissertations (ETD) for details.

Theses must comply with the regulations set out in A Student Guide to Preparing Electronic Theses and Dissertations, available on the Graduate School’s website. Approval of the thesis by the graduate dean is necessary before graduation.

The thesis should be completed, if possible, while the student is in residence at the University. To request permission to complete a thesis in absentia, the student must, before leaving the University, submit a satisfactory outline of the thesis, as well as evidence that adequate facilities are available where the work will be done, to the head of the student’s major department.
Protection of Human Subjects for Research
Scientific research involving human subjects has produced substantial benefits for society, but it also can pose troubling ethical questions. The mission of the University’s Institutional Review Board (IRB) for Protection of Human Subjects is to ensure that research involving human subjects is conducted ethically. University and federal policies require that review and approval to use human subjects in research precede the research. In the case of thesis research that involves the use of human subjects in any way, the principal investigator is responsible for contacting the college Human Research Review Committee to obtain approval for the planned research.

Final Thesis Defense
The final oral thesis defense is the culminating experience in the master’s program. As such, all members of the thesis committee are expected to attend and participate in real time. Virtual attendance via interactive video or teleconference is permitted for off-campus external committee members, but Tuscaloosa campus faculty should attend in person unless extraordinary circumstances dictate the need for virtual attendance. The thesis must comply with the regulations in A Student Guide to Preparing Electronic Theses and Dissertations.

"Completed" means submitted to ProQuest after being successfully defended, carefully edited following the defense meeting, and having the Committee Acceptance Form (CAF) signed by all committee members, department chairperson, and graduate dean. A majority of the thesis committee must approve the written thesis and defense before submission to the Graduate School. Following the thesis defense, the Committee Acceptance Form is submitted by the thesis chair through the UA DocuSign system in myBama.

Graduate School deadlines, including each semester’s thesis deadline, are available at the Graduate School’s homepage. Consult the ETD website for details of ETD submission, including information on what needs to be submitted to the Graduate School. The graduate dean must approve the thesis before the student can be cleared for graduation.

Comprehensive Examinations
In addition to the regular course examinations, a final comprehensive examination representing a "culminating" or "capstone" experience for a degree is required of all candidates for the master's degree (except for those candidates pursuing the Master of Accountancy, the Master of Business Administration, the Master of Library and Information Studies, the Master of Social Work, and the Master of Tax Accounting). The comprehensive examination is a culminating experience in which the student is expected to integrate prior learning. Each department, with approval of the Graduate Council, determines the most appropriate format. The various exams may consist of one or more of the following:

- a written and/or oral examination based on the content of the degree program;
- a thesis and final oral defense;
- a course requiring interpretation and integration of information from previous courses;
- a research paper, a "policy and practice" paper, or equivalent experience;
- a public performance or exhibition along with a contextualizing paper; and/or
- a practicum or internship.

If the comprehensive exam requirement is met with option 1 and/or 2 above, then the examining committee for comprehensive examinations must consist of at least three members of the graduate faculty from that department and appointed by the dean of the Graduate School. The examination must be given at least six weeks before the date of graduation (two weeks before for Plan II) and reported promptly to the dean of the Graduate School on appropriate forms. The final report is submitted by the department through the UA DocuSign system in myBama. The form should be submitted when all examinations are completed. A student may take the final oral or written examination only twice. Failing the examination twice results in dismissal from the degree program and the Graduate School.

Application for Graduation
Each candidate for a master’s degree must submit an Application for Degree via myBama no later than the last day to register or add a course for the semester (or first term of the summer semester) in which requirements for the degree are to be completed. That specific date is published each semester at the Graduate School's website under Current Students/Deadlines for Graduate Students.

Second Master’s Degree
Six (6) semester hours of eligible credit from one master’s degree at The University of Alabama may be applied to the requirements for a second master’s degree, but only if the department of the second master’s agrees to the courses in the plan of study. Any hours from the previous master’s degree must have been earned during the six years (18 fall, spring, and summer semesters) immediately preceding the date on which the second degree is to be awarded. ***Please note that if a student double counts six hours between two master’s degrees, no hours may double count toward any additional master’s degrees.
