ENGLISH, PH.D.

Admission
Applicants for admission to the PhD program in English are required to take the general test and the written test of the Graduate Record Examination. Each applicant must submit a sample of his or her critical writing (normally an essay of some 20 pages written for a course, or a portion of a master’s thesis) and must normally have a GPA of 3.5 or better for his or her master’s courses or equivalent graduate work. While new applications to our graduate programs will continue to be read until admissions decisions have been made, the application deadline for best consideration for all funding opportunities is December 1.

Admissions
In addition to the minimum Graduate School admission requirements, to be considered for regular admission an application must include:

- For the English PhD program, successful applicants normally have a GPA of 3.5 or better in master’s or equivalent graduate work.
- Statement of Purpose (the first line should mention the desired Specialty Area in the English Department). Tip: The Statement of Purpose describes your main research interests. Effective statements avoid generalizations and developmental narratives. Instead, they identify where you are with your work now and where you want to go. It can help to address the relationship between your writing sample and your research interests; and to connect your work to the faculty in the department. 500-750 words is usually right; just don’t go over 1000.
- Writing Sample: For the English PhD Program, this should consist of 20 pages of critical writing. The writing sample is usually a single essay written for an upper-level English course or an excerpt from a senior or master’s thesis. A strong essay positions your argument in relation to other scholars in the field.
- Names and institutional email addresses of three (3) referees who will submit letters of recommendation online via a link that will be sent to recommenders directly by the Graduate School. Please note that neither the Graduate School nor the Department of English can accept letters via Parchment.

While new applications to our graduate programs will continue to be read until admissions decisions have been made, the application deadline for best consideration for all funding opportunities is December 1.

See the Admission Criteria section of this catalog for more information.

Curricular Requirements
The PhD program requires 48 hours of coursework beyond the bachelor's degree, including:

- 18 hours of approved graduate-level coursework transferred in from a master’s program (only credits earned in the last six years will be considered)
- 30 hours of coursework beyond the master’s degree (earned here or elsewhere)

Doctoral candidates will also complete 24 hours of dissertation research and two hours of teaching practicum (EN 533/EN 534). To be formally admitted to candidacy for the degree, students must pass EN 637 Workshop In Academic Writing, which is normally taken in the final year of coursework.

Doctoral candidates normally have a master’s degree to be considered for admission.

For specific course descriptions by semester, visit English Graduate Courses here.

CRES (Composition, Rhetoric, and English Studies) Degree Requirements
The CRES PhD Specialization requires 48 hours of coursework, 24 dissertation hours, and successful completion of the written and oral components of the CRES exam. The coursework will consist of 6 hours in core English courses, 15 hours in CRES core courses, 3 hours in linguistics, 12 hours in CRES electives, and 12 hours in approved general electives. Students who have prior graduate degrees or coursework may transfer up to 18 hours.

Curricular Requirements

A. The CRES curriculum
The CRES PhD specialization requires 48 hours of coursework, 24 dissertation hours, and successful completion of the written and oral components of the CRES exam. The coursework will consist of 6 hours in core English courses, 15 hours in CRES core courses, 3 hours in linguistics, 12 hours in CRES electives, and 12 hours in approved general electives. Students who have prior graduate degrees or coursework may transfer up to 18 hours. For graduate teaching assistants, 4 additional hours in EN 533 and EN 534 are required.

Students who have a teaching assistantship will take EN 533 Practicum Tchg College English and EN 534 Practicum Tchg College English.

B. The CRES preliminary examination
CRES students must pass both the written and oral components of the preliminary examination. The written preliminary examination will be four
hours in duration and will require candidates to respond to two of four topics.

If the candidate passes the written preliminary examination, the CRES faculty will conduct an oral examination in which the candidate will be responsible for material from all four topics—the two not covered on the written examinations as well as the two that were. Students who fail the written preliminary examination may take it a second time. Students who fail the examination a second time will not be allowed to continue doctoral work.

C. CRES dissertation and prospectus defense

CRES students who have passed the preliminary examination will form a dissertation committee consisting of four English Department graduate faculty members (including the director) and one external graduate faculty member. The candidate’s dissertation prospectus must be approved by the dissertation committee in an oral defense. (For more information, see the description for the dissertation and prospectus under the general PhD requirements).

Transfer Credit

Graduate School information on Transfer Credit.

Doctoral Plan of Study Requirement

Graduate School information on the Doctoral Plan of Study.

Comprehensive Exams

PhD Preliminary Exam

The PhD preliminary examination is a written exam of four hours in duration that requires the student to demonstrate, in the subfield of the dissertation, a depth of knowledge appropriate to an expert in that subfield. A list of approved subfields and a process for proposing alternative subfields shall be provided to the student. Under the direction of his or her preliminary examination committee chair, who will likely also serve as dissertation director, and subject to the approval of the full exam committee,

- The examinee will be responsible for constructing and demonstrating mastery over a reading list of approximately 100 primary and 30 secondary texts in the appropriate subfield; and,
- The examinee will write approximately twelve questions, from which the committee will choose a subset (usually no less than two and no more than four), to be revealed to and answered by the examinee during the four-hour examination period.

Exams will be closed book and closed note. Once the exam is completed, the student’s committee will read all responses, talk collectively about them, and then, on the basis of consensus whenever possible, and on the basis of a majority that must include the chair if consensus is unreachable, assign the examinee a final grade of Distinction, Pass, or Fail.

Dissertation Prospectus Conference

This is a one-hour discussion of the dissertation prospectus between the student and his or her dissertation committee. The conference will focus on the soundness of the prospectus and the student’s readiness to undertake the research and writing of the dissertation. The purpose of the conference is to help the student begin the writing of the dissertation, to identify areas of potential difficulty, and to prepare the student for the project that lies ahead.

- Select a faculty member with whom you are comfortable working and who is a specialist in the area of your dissertation. Ask that person if s/he is willing to direct your dissertation.
- In consultation with your dissertation director, and when you know the focus of your dissertation, select four other committee members (one of whom must be from another department of college) to serve as readers of your dissertation and as your examiners.
- Ask those other four professors if they are willing to serve on your dissertation committee. Discuss with these professors who wants to see what when. There are no hard and fast rules for such negotiations. With some members of your committee, you may want to work closely; they may wish to see multiple drafts of individual chapters throughout the writing of the dissertation; others may only wish to see a completed version before your defense. Make sure that you’ve reached a mutually agreeable working relationship with your committee.
- Work with your director to prepare a draft of your prospectus—about 10-20 pages plus a working bibliography—that you both agree is ready to go to your entire committee.
- Submit the prospectus to your committee, who may ask for revisions or suggest additional readings.
- Once the prospectus has been approved for the conference by your dissertation committee, poll the members of the committee concerning available times and dates for the dissertation prospectus conference.
- Provide the Director of Graduate Studies with a copy of the prospectus and ask the Graduate Studies Coordinator (Jennifer Fuqua) to schedule a room for the conference. Please give her a week’s notice.

For more information, see the Graduate School’s A Student Guide to Preparing Electronic Theses and Dissertations.

Practicum Requirements

All candidates for the PhD degree are required to have college or university teaching experience in English composition or literature before they graduate. Teaching assistants must complete the summer practicum before their first semester of service and enroll in EN 533 Practicum Tchg College English and EN 534 Practicum Tchg College English during their first year of teaching service.

Admission to Candidacy Requirements

Graduate School information on Admission to Candidacy.

After finishing coursework, the student must be formally admitted to candidacy for the degree. To meet this requirement, each student must pass a written preliminary examination, and engage with his or her dissertation committee in a one-hour conference concerning the dissertation prospectus.

Once the prospectus conference is completed, the student may proceed to the dissertation.

Continuous Enrollment Policy

Graduate School information on Continuous Enrollment.

Dissertation Requirements

Preliminary examination

After finishing coursework, the student must apply to the Graduate School for admission to doctoral candidacy. To meet this requirement, each student must pass a written preliminary examination and engage
with his or her dissertation committee in a one-hour conference concerning the dissertation prospectus. The written preliminary examination will be given at a date agreed upon by the student and his or her examination committee in consultation with the director of graduate studies. The oral conference concerning the dissertation prospectus can be scheduled after the student passes the written examination, when the student and dissertation director agree that the prospectus is ready (date to be arranged by the student in consultation with the graduate studies director and the dissertation committee). The examination and conference will be governed by the following guidelines:

1. Written preliminary examination (see specific procedures for rhetoric and composition):

   The purpose of the written preliminary exam is to demonstrate competence in the student’s area of specialization. The exam will be of four hours in duration in the field or genre of the dissertation. The examination committee will consist of three faculty members from the English department chosen by the student for their expertise in the field. Under the direction of her or his preliminary examination committee chair, who will likely also serve as dissertation director, and subject to the approval of the full exam committee, 1) the examinee will be responsible for constructing and demonstrating mastery of a reading list of primary and secondary texts in the appropriate subfield; and 2) the examinee will write approximately twelve questions, from which the committee will choose a subset (usually no less than two and no more than four) to be revealed to and answered by the examinee during the four-hour examination period. Exams will be closed book and closed note. Once the exam is completed, the student’s committee will read all responses, discuss them, and then, on the basis of consensus when possible and the basis of a majority that must include the chair if consensus is unreachable, assign the examinee a final grade of Distinction, Pass, or Fail. Students who fail the written preliminary examination may take it a second time. Students who fail the examination a second time will not be allowed to continue doctoral work.

2. Dissertation prospectus conference and dissertation defense

   The conference concerning the dissertation prospectus will be a one-hour discussion between the student and his or her dissertation committee. Generally, that committee will be composed of the dissertation director, plus three other graduate faculty members from the department and one graduate faculty member from outside the department. The conference will focus on both the soundness of the prospectus and the student’s readiness to undertake the research and writing of the dissertation. The purpose of the conference is to help the student begin the writing of the dissertation, to identify areas of potential difficulty, and to prepare the student for the project that lies ahead.

   Once the written preliminary examination has been passed and the dissertation prospectus conference completed, the student and his or her dissertation committee must complete an application to candidacy and submit it to the Graduate School. The graduate studies director will notify the Graduate School that the written preliminary examination has been passed and the dissertation prospectus conference completed.

   Once the prospectus conference is completed, then the student may proceed to the dissertation. The dissertation defense consists of an oral defense of the dissertation before four English department graduate faculty members (including the director) and an external graduate faculty member. Normally, the members of this committee are those faculty members who formed the dissertation prospectus conference committee. They will be appointed by the director of graduate studies in consultation with the student, who will have a clear understanding with the faculty members involved of whether they will be able to read the dissertation and conduct the final oral examination during summer months or during sabbatical leave if necessary. Faculty members have the prerogative to serve on a committee when they are not teaching; it is the student’s responsibility to schedule investigation, writing, and examination in time periods acceptable to members of the committee. All five members of the dissertation committee must have time to read and analyze the dissertation before the oral examination on the dissertation. Final approval of the dissertation must be received at least six weeks before graduation.

Graduate School information on Dissertation Requirements.

**Time Limits for Degree Completion Requirements**

Graduate School information on Time Limits.

**Additional Academic Requirements**

**Language Requirement**

PhD students must demonstrate reading proficiency in a foreign language in one of two ways:

- certification through the appropriate department of a “B” average or the equivalent of two years of undergraduate- or graduate-level study in a single foreign language, completed within five years of admission to the master’s program.
- passing the foreign language reading examination prepared by the Department of Modern Languages and Classics. Students who are not native speakers of English may use their native language to fulfill this requirement.

**Teaching**

Year one, incoming PhD students teach discussion sections attached to literature surveys taught by a professor. Year two, PhD students teach two composition sections each semester and enroll in “EN 533 Practicum Tchg College English” and “EN 534 Practicum Tchg College English.” In advanced years, opportunities arise to teach other courses, including literature surveys.

Doctoral Degrees

The University offers several types of doctorates, each of which is described below.

The minimum period in which a doctoral degree can be earned is three full academic years of graduate study after completion of a baccalaureate degree, although in most disciplines the period is longer. Graduate teaching assistants (GTA) or graduate research assistants (GRA) whose work assignments are 10 hours per week (i.e. the equivalent of 3 semester hours) or more should expect to take more than the minimum period of 3 academic years to earn a doctoral degree. The only exception to the three-year minimum is the practice-focused DNP.

Doctor of Philosophy Degree

The Doctor of Philosophy (PhD) degree is regarded as the researcher’s degree. Program requirements include the acquisition of special skills for conducting independent, scholarly research of publishable quality. Requirements traditionally include a working knowledge of one or more foreign languages, but currently a number of foreign-language alternatives have been approved by departments. Through acquisition of these skills, PhD candidates demonstrate their potential for careers as independent, publishing scholars. Refer to departmental sections of this Catalog for details on foreign-language requirements or alternatives.

The Doctor of Philosophy (PhD) degree is granted on the basis of scholarly proficiency, distinctive achievement in a special field, and capacity for independent, original investigation. The first two criteria are tested in coursework and a comprehensive examination, the last in a dissertation in which the student must present clearly and effectively the results of substantial research. A combination of these accomplishments, rather than the mere accumulation of residence and course credits, is the essential consideration in awarding the PhD degree. The PhD differs from the EdD in a number of ways, including the fact that the PhD Plan of Study and comprehensive examination demonstrate a higher-level research focus, and there is a greater number of dissertation hours and higher level of complexity and independent thought in a PhD-level dissertation.

Field of Specialization - A defined field of specialization as outlined in the student’s Plan of Study is required of all candidates for the Doctor of Philosophy degree. A minimum of 36 semester hours of non-dissertation course credit is required. Departments or programs may require more than this minimum. Candidates should consult their departments or the appropriate section of this Catalog for additional requirements. The doctoral course as a whole must be unified, and all its parts must contribute to an organized program of study and research. In addition, a student must complete a minimum of 18 hours of dissertation research.

Research skill/language requirements - There is no university wide foreign language/research skill requirement for doctoral students; each college or department offering the PhD degree may set its own requirements. This policy reaffirms the importance of research skills and foreign languages in the highest academic degree granted by American universities, but it also recognizes that the departments offering the degrees are in the best position to determine the number and nature of such requirements in the interests of their students. For further information about PhD foreign language/research skill requirements, students may contact their departments.

Interdisciplinary Studies

There is a PhD degree program in interdisciplinary studies, and it is administered by the Graduate School. In addition to the general requirements for the PhD degree, the program of study and the supervisory committee for the prospective interdisciplinary studies degree candidate must be approved by the dean of the Graduate School before the student is admitted to the program. See Interdisciplinary Studies (IDS) at the Graduate School’s website for information on prerequisites, admission procedures, course of study, and other aspects of IDS programs.

Doctor of Education Degree

The Doctor of Education (EdD) requires a minimum of two years of graduate study beyond the master’s degree for the completion of the EdD program. The student is required to complete 60 semester hours in approved graduate coursework research beyond the master’s degree, or 90 semester hours of approved graduate courses, and to defend a dissertation. The student must complete a minimum of 12 hours of dissertation research. In the College of Education section of the Graduate Catalog, there are specific regulations governing the EdD program.

Doctor of Musical Arts Degree

The Doctor of Musical Arts (DMA) degree requires a minimum of 48 semester hours beyond the Master of Music degree, plus recitals and other examinations as determined by faculty of the School of Music. Specific requirements for each major area are outlined in the School of Music section of the Graduate Catalog.

Doctor of Nursing Practice

The Doctor of Nursing Practice (DNP) is a practice-focused degree that is detailed in the Nursing section of this Catalog.

Doctor of Social Work

A Doctor of Social Work (DSW) degree is a practice doctorate degree in social work. It provides coursework on theory and skills in social work practice that are more advanced than what one would typically experience in an MSW program for social work.

Admission to Doctoral Degree Programs

Admission to any doctoral program is limited to students whose scholastic records show distinct promise of success in doctoral study. Admission to the Graduate School and the earning of a master’s degree from The University of Alabama does not guarantee acceptance into a doctoral program. Students in doubt about their acceptance into doctoral programs should consult with departmental advisors and the Graduate School, which makes the final decision about admission. A department may terminate a student’s doctoral admission if there is documented unsatisfactory academic or other progress toward completion of the degree.

Residency Requirements

The University of Alabama recognizes that doctoral students should be immersed in advanced study and inquiry, interact extensively and meaningfully with faculty and peers, engage with the academic community in their field, and have access to the educational resources of the University. To achieve these goals, a minimum of 50 percent of coursework hours to be counted in a student’s doctoral program must be from The University of Alabama (exclusive of dissertation research hours and subject to the Graduate Catalog’s Transfer of Credit policies). Additionally, 100 percent of dissertation credit hours must be from The University of Alabama. Diverse academic traditions, rapidly changing instructional modalities, and new student populations are acknowledged and accommodated with this policy.

Graduate Credit

A student must be admitted to the Graduate School and must register as a graduate student in order to receive graduate credit. Approval for
graduate registration must be obtained from program advisors prior to registration.

**Graduate Credit for Noncredit Experiences**

All course credit used toward a UA graduate degree must be taught at the graduate level. No graduate credit may be earned by correspondence study or for experiential learning not conducted under the direct supervision of graduate faculty of The University of Alabama. UA does not offer graduate credit for noncredit workshops, seminars, continuing education experiences, professional development, internships, work/life experience, and so forth.

**Transfer of Credit**

Graduate credit earned in the field of the doctoral degree from a regionally accredited institution in which the student was enrolled in the graduate school of that university may be considered for transfer and applied towards the requirements for a doctoral degree if approved by the department and the Graduate School. Evaluation of credit for transfer will not be made until after the student has enrolled in the Graduate School of The University of Alabama.

In some cases, foreign educational credentials may not meet the Graduate School's criteria for transfer of credit. It may be necessary for students in this situation to secure an evaluation of their credentials from World Education Services Inc. (WES), an external foreign credential evaluation service. Additional information on their services can be found at their website.

There are two options for possible transfer of graduate credit at the doctoral level.

1. **All doctoral programs**: Up to one-half of the required coursework (exclusive of dissertation research hours) for a doctoral degree may be transferred from another institution if the credit was in-field and was earned during the six-year period (18 fall, spring and summer semesters) preceding the semester of admission to the UA doctoral program. Revalidation (recertification) of credits more than 18 semesters old at the time of admission to a doctoral program is not an option. Only courses in which a student earned a "B" grade or better may be transferred. Under this option, a Request for Transfer of Graduate Credit form must be submitted to and approved by the Graduate School.

2. **PhD Programs Only**: A student holding an earned, in-field master's degree may request approval for up to 24 hours of credit to be applied to the PhD. To do this, the student must have earned at least a "B" overall graduate GPA from the awarding institution. If approved for transfer, these hours would count toward the minimum 48 coursework hours required for the PhD degree. When exercising this option, a Request for Transfer of Graduate Credit form must be submitted to and approved by the Graduate School. The requested transfer credit hours must be listed on the PhD Plan of Study as MSC501 under the transfer credit section. If the in-field master's degree was awarded more than six years prior to admission to the current doctoral degree program, the graduate program director or department head/Chair must also submit to the Graduate School for evaluation, a Field-Related Employment Since Earning Master’s Degree form with the student’s CV must be submitted by the department through the UA DocuSign system in myBama. In addition, the department is asked to provide the following, attached to the approved Plan of Study:
   a. An annotated work history from the student. This history should include job titles and major duties for all positions since earning a master's degree.
   b. A brief paragraph from the corresponding faculty member, attesting that he/she has reviewed the work history and how that work applies to the current Ph.D. degree program.

The Graduate School will make the final determination about whether up to 24 prior master’s hours can be applied to the Ph.D. requirements.

PhD awarding departments that want to participate in offering Option 2 to their doctoral students, need to “opt in” by informing the graduate dean in writing that they wish to be among the approved departments.

Consideration of transfer of credit or the acceptance of an earned master’s degree as credit toward a PhD program is subject to a final decision by the Graduate School. In either case the student must ensure that the Graduate School has an official transcript of all credit involved. This will ensure that the student and advisor are fully aware of course hours needed when submitting the required Plan of Study, which must be submitted by the time the student completes 30 hours of transfer plus UA coursework. Planning to transfer courses in the final semester typically will delay graduation.

Please note that some departments allow fewer than 24 hours of graduate transfer credit. Be sure to check with your department’s graduate coordinator regarding your department’s transfer policy. Dissertation Research (699) may not be transferred in from an outside institution.

**Time Limits**

All requirements for the doctoral degree must be completed within nine years (27 fall, spring, and summer semesters) following admission to the doctoral program, with the following specific exception approved by the Graduate Council: Modern Languages and Classics (ten years if entering the doctoral program with a baccalaureate, not master’s, degree).

Previous graduate credit may be applied to the doctoral degree if the credit was earned during the six-year period prior to admission to the doctoral program or accepted by the Graduate School as part of Option 2. Such credit must be identified clearly on the Outline of PhD Program (Plan of Study) and requires Graduate School approval. Only those students graduating within the time limit for their doctoral program may apply previously approved graduate credit to the doctoral degree.

**Revalidation of Expired Credits**

There may be particular and limited instances where a student is re-admitted to a graduate program, and revalidation of expired credits is justified. In such cases, where the department and Graduate School feel it is appropriate to do so, the student may work with the graduate program director to petition for such revalidation, on a course-by-course basis. For each course for which revalidation is requested, the student must demonstrate, to the department’s satisfaction, that the knowledge and skills gained in that course are still current. Currency will be evaluated by a committee of faculty, composed of at least three graduate faculty members within the degree program to which the student is requesting re-admission, and two from a separate department.

The committee will then issue a recommendation to the dean of the Graduate School, who will rule on the petition.

Some methods for demonstrating currency may include but are not limited to 1) a professional portfolio; 2) an exam or essay linked to each course and demonstrating up-to-date knowledge; 3) a re-take of the comprehensive exams under current program guidelines, and/or 4) other methods deemed appropriate by the committee.
Students may request revalidation of up to 50% of the required minimum coursework for their degree. Credits earned from an institution other than The University of Alabama may not be revalidated.

Consideration of revalidation, and a plan of study based on the demonstration-of-currency and other remaining requirements, must be completed as part of the student’s re-admission to the Graduate School. Revalidation of credits is not guaranteed. From the time of re-admission, students must complete the degree within the standard time limit, as specified in the Graduate Catalog at the time of the student’s re-admission.

The Continuous Dissertation or Document Registration requirement for 699 and 799 enrollment will be waived for the intervening years between the student’s cessation of doctoral work and re-admission.

**Plan of Study**

Early in the graduate program, each student must confer with the appropriate departmental advisor or major professor to select courses, discuss when and by which method the doctoral residency requirement will be completed, discuss research interests, and so forth. Then a Plan of Study must be prepared and submitted to the Graduate School by the time the student has completed 30 coursework hours.

The PhD, DMA, and DSW Plans of Study are submitted by the department through the UA DocuSign system in myBama. The Plan of Study for other doctoral programs (Ed.D., DNP) are available from the student’s department, college, or school. All doctoral students must have a completed Plan of Study approved by the Graduate School no later than the semester during which the student will complete 30 semester hours of UA and/or transfer credit toward the doctoral degree. Otherwise, a “hold” may be placed on future registrations.

A copy of the approved Plan of Study must be submitted to the Graduate School when the department submits the Admission to Candidacy for Doctoral Degree form through the UA DocuSign system in myBama.

**Preliminary or Comprehensive Examination**

A preliminary or comprehensive qualifying examination is required of all doctoral candidates. This examination is given after

- any foreign language/research skill requirements are met (PhD students only);
- two full years of graduate study are completed; and
- the supervisory committee deems the student to have adequate preparation in the major and minor fields of study.

The examination is conducted by the student’s supervisory committee or other committee established in the program area. Whereas one of the purposes of the preliminary examination is to determine the student’s research competence to begin work on a dissertation, the examination should be completed at least nine months before the degree is to be awarded. A student may take the oral or written examination only twice. Failing the examination twice results in dismissal from the degree program and the Graduate School.

**Admission to Candidacy**

The designation of candidacy reflects the student’s demonstration of foundational knowledge and readiness to conduct independent research, in the discipline. The requirement for advancing to candidacy is determined by the faculty of the degree program and delineated in the program’s section of the Graduate School Catalog and the program’s Graduate Student Handbook.

Advancement to candidacy should involve either:

- passing the qualifying (major or preliminary) examination
- completing of all required coursework as listed on the approved program of study
- presenting or defending a dissertation prospectus or proposal
- or some combination of these milestones.

Students are not eligible to register for 699 or 799 credit hours until they have been advanced to candidacy. The Department Chair or Department Director of Graduate Studies, or their designee, shall submit the Admission to Candidacy for the Doctoral Degree form to the Graduate School during the semester that the student meets the program’s candidacy requirements.

**Continuous Doctoral Research Hours Registration**

Once a student meets their program’s requirement for admission to candidacy and the designated Department administrator submits the Application for Admission to Candidacy form to the Graduate School, the student may enroll in 699 (dissertation/document research) or 799 (document/project research).

Once initiated, the student must pursue completion of the dissertation/document/project without interruption by enrolling in 699/799 each fall and spring semester of the academic year.

The only time summer registration is required for dissertation/document/project research is when a doctoral student is graduating in August or defending the dissertation/document/project during the summer semester.

Ph.D. students must complete a minimum of 18 hours of dissertation research credits (699). Ph.D. students must register for a minimum of 3 dissertation research credits each semester until reaching their program’s minimum. Thereafter, they must register for a minimum of 1 dissertation hour each semester, maintaining continuous enrollment in 699 until degree completion.

Ed.D. students must complete a minimum of 12 dissertation research credits (699). Ed.D. students must register for a minimum of 3 dissertation research credits each semester until reaching their program’s minimum. Thereafter, they must register for a minimum of 1 dissertation hour each semester, maintaining continuous enrollment in 699 until degree completion.

DSW Students must complete a minimum of 9 hours of project research (SW 799). DSW students must complete a minimum of 1 document/project research hour each semester, maintaining continuous enrollment in SW 799 until degree completion.

**Dissertation Committee**

The dissertation committee may be formed early in the dissertation research process, or shortly before the dissertation proposal is approved.
It is expected that the committee will be formed and approved before significant progress is made on the dissertation. The committee must be formally established via a process initiated by the student and requiring the consent of each committee member, followed by Graduate School review for compliance with the regulations outlined below. Click here for instructions on the process of establishing the committee.

The committee must consist of at least five members. It may have additional (voting or nonvoting) members if deemed appropriate. At least one of the committee members must be from outside the student’s major department. These external members may be from another academic department at UA, from other universities, or from industry or the professional field. In all cases, these members external to the department/program must be appointed to UA’s Graduate Faculty by the dean of the Graduate School, and must have significant professional qualifications that directly contribute to the depth and rigor of the dissertation.

All members of the dissertation committee must hold Graduate Faculty status at The University of Alabama. The chair of the committee must hold Full Graduate Faculty status; others may be Full, Associate, or Affiliate members of the Graduate Faculty. A majority of the Dissertation Committee members must be full-time regular University of Alabama faculty (that is, full-time instructor, assistant professor, associate professor, or professor).

Dissertation Proposal

The dissertation proposal aims to show the appropriateness, manageability, and significance of the projected research. The student formally presents the written proposal to the dissertation committee and defends it in a meeting with the committee. The proposal normally includes an introduction that provides an overview and states the significance of the proposed research, review of the literature, and methodology. Departments determine the details of the dissertation proposal’s format with respect to specifics such as the length of the introduction and level of detail of the literature review. Once the student and dissertation chair have developed a proposal, and the graduate dean has approved the dissertation committee, the student schedules the dissertation proposal meeting that includes all committee members. The student cannot propose a dissertation and have its final defense in the same semester.

Dissertation

A dissertation showing the ability to conduct independent research and skill in organization, writing, and presentation must be prepared on a topic in the major field. It must constitute an original contribution to knowledge. The dissertation must be based upon research completed while the student is enrolled at The University of Alabama.

The subject of the dissertation must be approved by the student’s dissertation committee and by the dean of the Graduate School. The final dissertation may take the form of a traditional, chapter-based document or a series of full-length publication-ready manuscripts which are part of a larger, cohesive body of work. The format (traditional vs. article-style) must be approved by the committee in accordance with the standards for the program and the discipline.

For article-style dissertations, the document must contain a minimum of three articles, in addition to introductory and concluding materials. A single abstract must accompany the document. In addition to an introduction presenting the unifying framework that supports the research, the document must include a concluding section that summarizes the importance of the work, integrates the major findings, and discusses the implications for the overall body of work.

Individual departments may have policies or guidelines related to whether sections of the dissertation may be included if they have been previously published elsewhere. Copyright issues also may arise if sections of the dissertation have been previously published. Therefore, students who are considering the submission of dissertation chapters/articles for publication prior to their dissertation defense should consult with their advisor, and also with potential publication outlets, before submitting any dissertation-related manuscript for publication.

All parts of the dissertation must conform to the provisions set forth in A Student Guide to Preparing Electronic Theses and Dissertations, except when the circumstances of a specific project or discipline’s style manual require deviation. Students should email gradschool@ua.edu before beginning their work if they have questions concerning specific problems or deviations from traditional procedure.

The Dean of the Graduate School must approve the dissertation before the student can be cleared for graduation. See “Final Dissertation Submission and Approval” for details.

Virtual Participation in Committee-Based Exams/Defenses

All members of a student’s graduate committee are expected to attend and participate, usually in person, in any oral examination as part of the student’s graduate (Master’s or Doctoral) degree program. Traditionally, oral examinations are conducted with the student meeting their committee while gathered in one physical location on campus. However, the need occasionally arises for virtual participation in the oral examination.

If a department or program chooses to allow virtual participation in oral examinations, they must ensure adherence to the following technical requirements. Departments or programs may enforce stricter guidelines than those outlined, including an on-campus-only policy if deemed necessary and appropriate.

Technical Requirements

In cases where departments or programs allow any level of virtual participation, from one virtual member to a fully virtual event, they must adhere to the following requirements:

1. Prior to any oral exam, the student and Committee Chair coordinate with other committee members regarding the protocol for the exam.
2. All participants must join using university-adopted videoconferencing tools that allow for fully interactive audio and video communications along with screen-sharing capabilities, which must be maintained throughout the examination and any related discussion.
3. The use of audio-only communications is not permitted.
4. Participation merely by viewing a recording of the oral examination is specifically prohibited.
5. All members of the committee, on- or off-site, must participate in the final evaluation of the examination or defense; provisions must be made to record their votes and collect their signatures as necessary using the digital signature system approved by the Graduate School.
6. The Committee Chair, or another non-student designee, shall be the host of the virtual meeting. A co-host may be assigned so that the event will not be interrupted by technical difficulties. The host should mute all participants (or ask participants to mute themselves) and ask the student to share their screen, if a presentation is involved, in order to make the presentation visible to all attendees. The host must also ensure that appropriate security precautions are taken to prevent the interruption of the event.
7. Following the public portion of the defense, the host shall ask all non-committee members to leave the meeting, or the host may manually remove them. In programs where the defense has both a public and a private portion, the committee may then continue the event as outlined in their program protocols.

8. Once the committee has completed the examination of the student, the host shall place the student into the waiting room (or have the committee members use a break-out room) so the committee can conduct their deliberations in private.

The committee chair must have a secondary videoconferencing system available as a back-up in the case of technical difficulties. Cancellation of the examination should only occur in the case where both the primary and secondary back-up systems fail. If an examination must be rescheduled, it will be done without prejudice to the student. Since committee deliberations are an essential aspect of the examination, completing the examination and final discussion via email or other non-audiovisual means is not an option. If the student or any committee member(s) have a disability that will be impacted by virtual participation, accommodations for participation must be provided.

Final-Semester Minimum Doctoral Research Hours Registration

The Catalog section on Continuous Dissertation Registration for Doctoral Students states that once a student qualifies for doctoral candidacy, the student must enroll each semester for at least 3 hours of dissertation (699) research until reaching their department’s minimum requirement, and at least 1 hour for each semester thereafter until degree completion and graduation. If certain conditions are met for the student’s final semester, the student may qualify to enroll for fewer hours of 699 dissertation research. A zero-hour or one-hour 699 registration is permitted only in the final semester#. This exception applies only to students who registered for at least 1-3 hours of dissertation (699) research in the preceding semester and only under the conditions described in the table below.

<table>
<thead>
<tr>
<th>When was the “completed electronic dissertation submitted to ProQuest/the Graduate School?</th>
<th>Minimum hours of 699 registration required in the final semester</th>
</tr>
</thead>
<tbody>
<tr>
<td>By 11:59pm on the Final Grade Entry Day for the student’s penultimate semester (date published in the University Academic Calendar#)</td>
<td>0</td>
</tr>
<tr>
<td>After the Final Grade Entry Day for the student’s penultimate semester (date published in the University Academic Calendar#)</td>
<td>1</td>
</tr>
</tbody>
</table>

*“Completed” means submitted to ProQuest after being successfully defended and carefully edited following the defense meeting. The dissertation chair or department designee must submit the Committee Acceptance Form (CAF) through the UA DocuSign system. The CAF must be signed by all committee members, department chairperson, and graduate dean. The CAF is submitted by the department through the UA DocuSign system in myBama. At the time of ProQuest submission, the student also must submit the Survey of Earned Doctorates through the NORC website.

Footnotes
1. International students on F-1 or J-1 student visas are not permitted to use the zero-credit hour exception above as the basis of maintaining minimum enrollment requirements as active students. Please see “USCIS” section under “Minimum Hours—Other Policies and Regulatory Bodies” on page 3 of this policy.
2. The University Calendar is available at the Academics tab of the website of the University Registrar.

Protection of Human Subjects for Research

Scientific research involving human subjects has produced substantial benefits for society, but it also has significant ethical questions. The mission of the University’s Institutional Review Board (IRB) for Protection of Human Subjects is to ensure that research involving human subjects is conducted ethically. University and federal policies require that review and approval to use human subjects in research precede the research, no matter how great or small the involvement of the human subjects. In the case of dissertation research that involves the use of human subjects, the principal investigator is responsible for contacting the college Human Research Review Committee to obtain approval for the planned research. The University’s IRB approval form is available at the IRB website.

Dissertation Defense

The dissertation defense is the culminating experience in the doctoral program. The Dissertation Chair and the student will coordinate with all committee members to choose a time, date, and location for the dissertation defense. All doctoral candidates must give members of the dissertation committee a minimum of two weeks to read the dissertation before the defense date. The dissertation must comply with the regulations in A Student Guide to Preparing Electronic Theses and Dissertations.

The dissertation defense is comprised of four parts.

1. Public Advance Notice. A minimum of two weeks prior to the scheduled defense date, the candidate must submit the Public Notice of a Dissertation Defense form. This form includes the name of the candidate, the department or program, the title of the dissertation, an abstract of 200 words or less, and the date, time, and location of the dissertation defense. The candidate should consult with the Dissertation Chair prior to initiating this form. The form will be initiated by the candidate and signed by the Dissertation Chair, Graduate Program Director, and the Graduate School. Upon receipt of the completed form, the Graduate Program Director will ensure the scheduled defense is disseminated within the department. The Graduate School will post the scheduled defense on the Graduate School website.

2. Oral Presentation. An oral presentation of the dissertation is required and shall be public. The content and duration of the oral presentation are at the discretion of the Dissertation Chair, in consultation with the Committee, based on departmental norms, disciplinary standards, and traditions.

3. Oral Defense. This examination phase of the dissertation defense is required and may be public or private. Each department or program shall establish a policy for whether the oral defense is public, private, or both (i.e., has a public portion and a private portion).

4. Committee Deliberation. Committee deliberation is required and shall be private. Upon completion of the oral defense, everyone other than the committee members shall leave the defense location while the committee discusses, deliberates, and votes. For a defense to be successful, the majority of the committee must approve the dissertation and the defense.
The results of the dissertation defense must be reported to the Office of the Graduate School by submitting the Committee Acceptance Form at least six weeks before the Fall/Spring commencement, or five weeks before the Summer commencement, at which the degree is to be conferred. The Committee Acceptance Form, submitted by the department through the UA DocuSign system and found in myBama, confirms that a majority of the dissertation committee has approved the written dissertation and oral defense.

Any changes made to the manuscript after the defense must be approved by the Dissertation Chair. The student must submit the final dissertation to the Graduate School, and the Dean of the Graduate School must approve the dissertation, before the student can be cleared for graduation. See “Final Dissertation Submission and Approval” for details.

Final Dissertation Submission and Approval

Following a successful dissertation defense (see “Dissertation Defense” for details), any edits agreed upon during the defense must be incorporated into the manuscript, and the Dissertation Chair must approve the final manuscript. After a careful review to ensure that the manuscript adheres to the Graduate School’s formatting guidelines, the candidate must submit the approved manuscript to the Graduate School for final approval, address any remaining edits, and initiate the upload process for archiving the manuscript in the national dissertation repository, ProQuest.

The dissertation, in its final form, must be received in the Graduate School within 60 days of the dissertation defense. If this deadline is not met, the Dissertation Chair may require the candidate to schedule a second dissertation defense. Note that this 60-day deadline is separate from the deadlines for degree conferral and participation in Commencement ceremonies.

Graduate School deadlines for each semester, including deadlines for submitting the final manuscript to the Graduate School to graduate at the end of the semester, are available on the Graduate School’s homepage. Consult the Graduate School’s dissertation site for additional details of the electronic submission process, including information on exactly what needs to be submitted to the Graduate School. At the stage of the Graduate School review of the manuscript, additional revisions may be required, to ensure that the final manuscript conforms to all formatting and editing standards. The graduate dean must approve the dissertation before the student can be cleared for graduation.

Application for Graduation

Each candidate for a doctoral degree must submit an Application for Degree via myBama no later than the last day to register or add a course for the semester (or first term of the summer semester) in which requirements for the degree are to be completed. That specific date is published each semester at the Graduate School’s website under Current Students/Deadlines for Graduate Students.

Withholding or Withdrawing an Advanced Degree

The University of Alabama reserves the right to withhold or withdraw an advanced degree on the recommendation of the graduate faculty.
