POLITICAL SCIENCE, PH.D.

The Department of Political Science offers a Political Science, Doctor of Philosophy (Ph.D).

Admissions

The PhD is primarily a research degree, and students in this program will be trained rigorously in the literature and methods necessary to conduct original research in the discipline. Students will also gain valuable experience in classroom teaching, thus improving their prospects on the academic job market and preparing them for life as a full-time faculty member.

The Political Science Department maintains a selective PhD program and invites applications for consideration by the department’s Graduate Studies Committee. Applications for the PhD program are considered year-round.

In addition to the minimum Graduate School admission requirements, to be considered for regular admission an application must include:

- 3 letters or recommendation
- A resume
- GRE score of 300 (verbal + quantitative) or greater for regular admission.

Graduate Teaching Assistantships (GTAs) are available through the Department on a competitive basis. All new applicants to the Ph.D. program will automatically be considered for funding. Most GTA positions are awarded beginning in the Fall term.

See the Admission Criteria section of this catalog for more information.

Curricular Requirements

Students will be expected to attain a satisfactory degree of knowledge and competence in three of the following fields of Political Science: American Politics, Comparative Politics, International Relations, Public Policy & Administration, and Political Theory.

PhD students must complete at least 51 credit hours of graduate coursework. Students will designate one field as the major field of study and the other two as minor fields. At least 18 hours above the bachelor’s degree (including transferred credit) must be in the major field, 12 hours in first minor field, and 9 hours in the second minor field.

Students pursuing the PhD degree must also complete 9 semester hours of methodology courses: PSC 521 Research Design, PSC 522 Quantitative Methods I, and PSC 621 Quantitative Methods II.

Transfer Credit

PhD students may request to transfer a maximum of 25 credit hours from another institution, subject to Departmental approval. Students must provide syllabi for all courses for which transfer credit is requested. Decisions on granting transfer credit will be made by the Director of Graduate Studies in consultation with the faculty member(s) teaching the most nearly equivalent UA course. In order to receive transfer credit, courses must be judged to have a workload and content comparable to departmental graduate courses. Core seminars in each field must be taken in residence.

Refer to the Graduate School Doctoral degree requirements page for more information.

Doctoral Plan of Study Requirement

Refer to the Graduate School Doctoral degree requirements page for more information.

Comprehensive Exams

These examinations will be taken in two fields of Political Science: the student’s major field of study and the first minor field. Students are eligible to take comprehensive exams no earlier than the last semester of their required coursework, and when they have completed not less than two full years of graduate study. Students may take comprehensive examinations in their major and minor fields in different semesters, but no later than one semester after completion of their course work.

Comprehensive examinations are administered during the Fall and Spring semesters only. The Director of Graduate Studies determines the dates for Comprehensive examinations and solicits exam coordinators for each field. The exam coordinators will develop the comprehensive examination in consultation with relevant colleagues in the field.

Fieldwork/Practicum/Internship Requirements

A foreign language is required of PhD students if appropriate to the student’s research interests, as determined by relevant faculty in the student’s major field of study. This determination shall be made prior to the completion of 18 hours in residence in the Ph.D. program. Students may, with approval of the Graduate Studies Committee, substitute foreign language for the PSC 621 requirement.

Admission to Candidacy Requirements

Students who have fulfilled the course requirements and passed the comprehensive examinations in their major field and first minor field become PhD candidates. No student may formally declare a dissertation topic until advancing to candidacy, but earlier preliminary inquiry and research on the dissertation topic is encouraged.

Continuous Enrollment Policy

Following admission to candidacy, students must remain in continuous registration until completion of the dissertation. Students must register each semester for at least three hours of PSC 699 Dissertation Research.

Refer to the Graduate School Doctoral degree requirements page for more information.

Dissertation Requirements

The dissertation must represent original research and constitute a contribution to knowledge in the discipline. A minimum of twenty-four credit hours of PSC 699 Dissertation Research is required for the PhD. PhD candidates should consult regularly with their dissertation committee chair regarding their proposed dissertation topic, including
whether the dissertation will follow the three article-style format or the traditional dissertation format.

The dissertation committee consists of a minimum of five members. Faculty from the University of Alabama Department of Political Science must make up a majority of the committee, and the committee must include at least one member from outside the University of Alabama Department of Political Science. The chair of the dissertation committee must be a full (i.e., tenured) member of the Graduate Faculty. The dissertation committee is formally established by the department chair. All members must be approved by the dean of the Graduate School.

Students are expected to submit their completed dissertation prospectus to their dissertation committee chair as soon as possible after they advance to candidacy, but no later than two semesters after successful completion of the comprehensive examinations. The dissertation committee chair will determine when the prospectus is ready for distribution to the dissertation committee. Upon approval by the dissertation committee chair and consent of the dissertation committee, an oral defense of the prospectus will occur.

Time Limits for Degree Completion Requirements

All requirements for the PhD program must be completed within the eight-year period (24 fall, spring, and summer semesters) following admission to the PhD program if the student enters the program without a Master’s degree in Political Science. Students entering the program with a Master’s degree must complete all requirements within seven years (21 fall, spring, and summer semesters).

Refer to the Graduate School Doctoral degree requirements page for more information.

Student Progress Requirement

During their course work, PhD students are required to meet with the Director of Graduate Studies prior to registering for classes each semester. For a first-year review, all faculty who taught a first-year PhD student assess the strengths and weaknesses of the student. The Graduate Studies Committee discusses the first-year student reviews and provides written feedback to the PhD student.

PhD candidates should make a concentrated effort to defend the dissertation prospectus within 1-2 semesters after comprehensive exams. They should also complete the dissertation within one calendar year after the successful prospectus defense.

Additional Academic Requirements

Ph.D. students are required to register for PSC 500 Departmental Seminar I in the Fall semester and PSC 501 Departmental Seminar II in the Spring semester. These courses are professional socialization seminars that are offered on a pass/fail basis for .5 credit each. These courses cover numerous topics such as effective teaching strategies; attending and participating in political science conferences; publishing your work in professional journals; the academic job market; and ethical issues facing instructors and researchers.

These courses will meet approximately once each month, with the Director of Graduate Studies and/or a faculty member coordinating the discussion. In addition to the class meetings, students will also attend research presentations and job talks as part of the professionalization process.

Academic Misconduct Information

Refer to the Graduate School academic misconduct policy for more information.

Withdrawals and Leave of Absence Information

Refer to the Graduate School withdrawals and leave of absence policy for more information.

Academic Grievances Information

Refer to the Graduate School academic grievance procedure for more information.

Scholastic Requirements

Refer to the Graduate School scholastic requirements page for more information.

Graduate School Deadlines Information

Refer to the Graduate School student deadlines page for more information.

Application for Graduate Information

Refer to the Graduate School Doctoral degree requirements page for more information.

Doctoral Degrees

The University offers several types of doctorates, each of which is described below.

The minimum period in which a doctoral degree can be earned is three full academic years of graduate study after completion of a baccalaureate degree, although in most disciplines the period is longer. Graduate teaching assistants (GTA) or graduate research assistants (GRA) whose work assignments are 10 hours per week (i.e. the equivalent of 3 semester hours) or more should expect to take more than the minimum period of 3 academic years to earn a doctoral degree. The only exception to the three-year minimum is the practice-focused DNP.

Doctor of Philosophy Degree

The Doctor of Philosophy (PhD) degree is regarded as the researcher’s degree. Program requirements include the acquisition of special skills for conducting independent, scholarly research of publishable quality. Requirements traditionally include a working knowledge of one or more foreign languages, but currently a number of foreign-language alternatives have been approved by departments. Through acquisition of these skills, PhD candidates demonstrate their potential for careers as independent, publishing scholars. Refer to departmental sections of this Catalog for details on foreign-language requirements or alternatives.

The Doctor of Philosophy (PhD) degree is granted on the basis of scholarly proficiency, distinctive achievement in a special field, and capacity for independent, original investigation. The first two criteria are tested in coursework and a comprehensive examination, the last in a dissertation in which the student must present clearly and effectively the results of substantial research. A combination of these accomplishments, rather than the mere accumulation of residence and course credits, is the essential consideration in awarding the PhD degree. The PhD differs from the EdD in a number of ways, including the fact that the PhD Plan of Study and comprehensive examination demonstrate a higher-level research focus, and there is a greater number of dissertation
hours and higher level of complexity and independent thought in a PhD-level dissertation.

Field of Specialization - A defined field of specialization as outlined in the student's Plan of Study is required of all candidates for the Doctor of Philosophy degree. A minimum of 36 semester hours of non-dissertation course credit is required. Departments or programs may require more than this minimum. Candidates should consult their departments or the appropriate section of this Catalog for additional requirements. The doctoral course as a whole must be unified, and all its parts must contribute to an organized program of study and research. In addition, a student must complete a minimum of 18 hours of dissertation research.

Research skill/language requirements - There is no university wide foreign language/research skill requirement for doctoral students; each college or department offering the PhD degree may set its own requirements. This policy reaffirms the importance of research skills and foreign languages in the highest academic degree granted by American universities, but it also recognizes that the departments offering the degrees are in the best position to determine the number and nature of such requirements in the interests of their students. For further information about PhD foreign language/research skill requirements, students may contact their departments.

Interdisciplinary Studies
There is a PhD degree program in interdisciplinary studies, and it is administered by the Graduate School. In addition to the general requirements for the PhD degree, the program of study and the supervisory committee for the prospective interdisciplinary studies degree candidate must be approved by the dean of the Graduate School before the student is admitted to the program. See Interdisciplinary Studies (IDS) at the Graduate School's website for information on prerequisites, admission procedures, course of study, and other aspects of IDS programs.

Doctor of Education Degree
The Doctor of Education (EdD) requires a minimum of two years of graduate study beyond the master's degree for the completion of the EdD program. The student is required to complete 60 semester hours in approved graduate coursework research beyond the master's degree, or 90 semester hours of approved graduate courses, and to defend a dissertation. The student must complete a minimum of 12 hours of dissertation research. In the College of Education section of the Graduate Catalog, there are specific regulations governing the EdD program.

Doctor of Musical Arts Degree
The Doctor of Musical Arts (DMA) degree requires a minimum of 48 semester hours beyond the Master of Music degree, plus recitals and other examinations as determined by faculty of the School of Music. Specific requirements for each major area are outlined in the School of Music section of the Graduate Catalog.

Doctor of Nursing Practice
The Doctor of Nursing Practice (DNP) is a practice-focused degree that is detailed in the Nursing section of this Catalog.

Doctor of Social Work
A Doctor of Social Work (DSW) degree is a practice doctorate degree in social work. It provides coursework on theory and skills in social work practice that are more advanced than what one would typically experience in an MSW program for social work.

Admission to Doctoral Degree Programs
Admission to any doctoral program is limited to students whose scholastic records show distinct promise of success in doctoral study. Admission to the Graduate School and the earning of a master's degree from The University of Alabama does not guarantee acceptance into a doctoral program. Students in doubt about their acceptance into doctoral programs should consult with departmental advisors and the Graduate School, which makes the final decision about admission. A department may terminate a student's doctoral admission if there is documented unsatisfactory academic or other progress toward completion of the degree.

Residency Requirements
The University of Alabama recognizes that doctoral students should be immersed in advanced study and inquiry, interact extensively and meaningfully with faculty and peers, engage with the academic community in their field, and have access to the educational resources of the University. To achieve these goals, a minimum of 50 percent of coursework hours to be counted in a student's doctoral program must be from The University of Alabama (exclusive of dissertation research hours and subject to the Graduate Catalog's Transfer of Credit policies). Additionally, 100 percent of dissertation credit hours must be from The University of Alabama. Diverse academic traditions, rapidly changing instructional modalities, and new student populations are acknowledged and accommodated with this policy.

Graduate Credit
A student must be admitted to the Graduate School and must register as a graduate student in order to receive graduate credit. Approval for graduate registration must be obtained from program advisors prior to registration.

Graduate Credit for Noncredit Experiences
All course credit used toward a UA graduate degree must be taught at the graduate level. No graduate credit may be earned by correspondence study or for experiential learning not conducted under the direct supervision of graduate faculty of The University of Alabama. UA does not offer graduate credit for noncredit workshops, seminars, continuing education experiences, professional development, internships, work/life experience, and so forth.

Transfer of Credit
Graduate credit earned in the field of the doctoral degree from a regionally accredited institution in which the student was enrolled in the graduate school of that university may be considered for transfer and applied towards the requirements for a doctoral degree if approved by the department and the Graduate School. Evaluation of credit for transfer will not be made until after the student has enrolled in the Graduate School of The University of Alabama.

In some cases, foreign educational credentials may not meet the Graduate School's criteria for transfer of credit. It may be necessary for students in this situation to secure an evaluation of their credentials from World Education Services Inc. (WES), an external foreign credential evaluation service. Additional information on their services can be found at their website.

There are two options for possible transfer of graduate credit at the doctoral level.

1. All doctoral programs: Up to one-half of the required coursework (exclusive of dissertation research hours) for a doctoral degree may be transferred from another institution if the credit was in-field and was earned during the six-year period (18 fall, spring and
summer semesters) preceding the semester of admission to the UA doctoral program. Revalidation (recertification) of credits more than 18 semesters old at the time of admission to a doctoral program is not an option. Only courses in which a student earned a "B" grade or better may be transferred. Under this option, a Request for Transfer of Graduate Credit form must be submitted to and approved by the Graduate School.

2. PhD Programs Only. A student holding an earned, in-field master’s degree may request approval for up to 24 hours of credit to be applied to the PhD. To do this, the student must have earned at least a “B” overall graduate GPA from the awarding institution. If approved for transfer, these hours would count toward the minimum 48 coursework hours required for the PhD degree. When exercising this option, a Request for Transfer of Graduate Credit form must be submitted to and approved by the Graduate School. The requested transfer credit hours must be listed on the PhD Plan of Study as MSC501 under the transfer credit section. If the in-field master’s degree was awarded more than six years prior to admission to the current doctoral degree program, the graduate program director or department head/chair must also submit to the Graduate School for evaluation, a Field-Related Employment Since Earning Master’s Degree form with the student’s CV must be submitted by the department through the UA DocuSign system in myBama. In addition, the department is asked to provide the following, attached to the approved Plan of Study:

a. An annotated work history from the student. This history should include job titles and major duties for all positions since earning a master’s degree.

b. A brief paragraph from the corresponding faculty member, attesting that he/she has reviewed the work history and how that work applies to the current Ph.D. degree program.

The Graduate School will make the final determination about whether up to 24 prior master’s hours can be applied to the Ph.D. requirements.

PhD awarding departments that want to participate in offering Option 2 to their doctoral students, need to “opt in” by informing the graduate dean in writing that they wish to be among the approved departments.

Consideration of transfer of credit or the acceptance of an earned master’s degree as credit toward a PhD program is subject to a final decision by the Graduate School. In either case the student must ensure that the Graduate School has an official transcript of all credit involved. This will ensure that the student and advisor are fully aware of course hours needed when submitting the required Plan of Study, which must be submitted by the time the student completes 30 hours of transfer plus UA coursework. Planning to transfer courses in the final semester typically will delay graduation.

Please note that some departments allow fewer than 24 hours of graduate transfer credit. Be sure to check with your department’s graduate coordinator regarding your department’s transfer policy. Dissertation Research (699) may not be transferred in from an outside institution.

Time Limits
All requirements for the doctoral degree must be completed within nine years (27 fall, spring, and summer semesters) following admission to the doctoral program, with the following specific exception approved by the Graduate Council: Modern Languages and Classics (ten years if entering the doctoral program with a baccalaureate, not master’s, degree).

Previous graduate credit may be applied to the doctoral degree if the credit was earned during the six-year period prior to admission to the doctoral program or accepted by the Graduate School as part of Option 2. Such credit must be identified clearly on the Outline of PhD Program (Plan of Study) and requires Graduate School approval. Only those students graduating within the time limit for their doctoral program may apply previously approved graduate credit to the doctoral degree.

Revalidation of Expired Credits
There may be particular and limited instances where a student is re-admitted to a graduate program, and revalidation of expired credits is justified. In such cases, where the department and Graduate School feel it is appropriate to do so, the student may work with the graduate program director to petition for such revalidation, on a course-by-course basis. For each course for which revalidation is requested, the student must demonstrate, to the department’s satisfaction, that the knowledge and skills gained in that course are still current. Currency will be evaluated by a committee of faculty, composed of at least three graduate faculty members within the degree program to which the student is requesting re-admission, and two from a separate department.

The committee will then issue a recommendation to the dean of the Graduate School, who will rule on the petition.

Some methods for demonstrating currency may include but are not limited to 1) a professional portfolio; 2) an exam or essay linked to each course and demonstrating up-to-date knowledge; 3) a re-take of the comprehensive exams under current program guidelines, and/or 4) other methods deemed appropriate by the committee.

Students may request revalidation of up to 50% of the required minimum coursework for their degree. Credits earned from an institution other than The University of Alabama may not be revalidated.

Consideration of revalidation, and a plan of study based on the demonstration-of-currency and other remaining requirements, must be completed as part of the student’s re-admission to the Graduate School. Revalidation of credits is not guaranteed. From the time of re-admission, students must complete the degree within the standard time limit, as specified in the Graduate Catalog at the time of the student’s re-admission.

The Continuous Dissertation or Document Registration requirement for 699 and 799 enrollment will be waived for the intervening years between the student’s cessation of doctoral work and re-admission.

Plan of Study
Early in the graduate program, each student must confer with the appropriate departmental advisor or major professor to select courses, discuss when and by which method the doctoral residency requirement will be completed, discuss research interests, and so forth. Then a Plan of Study must be prepared and submitted to the Graduate School by the time the student has completed 30 coursework hours.

The PhD, DMA, and DSW Plans of Study are submitted by the department through the UA DocuSign system in myBama. The Plan of Study for other doctoral programs (Ed.D., DNP) are available from the student’s department, college, or school. All doctoral students must have a completed Plan of Study approved by the Graduate School no later than the semester during which the student will complete 30 semester hours of UA and/or transfer credit toward the doctoral degree. Otherwise, a “hold” may be placed on future registrations.

A copy of the approved Plan of Study must be submitted to the Graduate School when the department submits the Admission to Candidacy for Doctoral Degree form through the UA DocuSign system in myBama.
Preliminary or Comprehensive Examination
A preliminary or comprehensive qualifying examination is required of all doctoral candidates. This examination is given after
• any foreign language/research skill requirements are met (PhD students only);
• two full years of graduate study are completed; and
• the supervisory committee deems the student to have adequate preparation in the major and minor fields of study.

The examination is conducted by the student's supervisory committee or other committee established in the program area. Whereas one of the purposes of the preliminary examination is to determine the student's research competence to begin work on a dissertation, the examination should be completed at least nine months before the degree is to be awarded. A student may take the oral or written examination only twice. Failing the examination twice results in dismissal from the degree program and the Graduate School.

Admission to Candidacy
The designation of candidacy reflects the student's demonstration of foundational knowledge and readiness to conduct independent research, in the discipline. The requirement for advancing to candidacy is determined by the faculty of the degree program and delineated in the program's section of the Graduate School Catalog and the program's Graduate Student Handbook.

Advancement to candidacy should involve either:
• passing the qualifying (major or preliminary) examination
• completing of all required coursework as listed on the approved program of study
• presenting or defending a dissertation prospectus or proposal
• or some combination of these milestones.

Students are not eligible to register for 699 or 799 credit hours until they have been advanced to candidacy. The Department Chair or Department Director of Graduate Studies, or their designee, shall submit the Admission to Candidacy for the Doctoral Degree form to the Graduate School during the semester that the student meets the program's candidacy requirements.

Continuous Doctoral Research Hours Registration
Once a student meets their program's requirement for admission to candidacy and the designated Department administrator submits the Application for Admission to Candidacy form to the Graduate School, the student may enroll in 699 (dissertation/document research) or 799 (document/project research).

Once initiated, the student must pursue completion of the dissertation/document/project without interruption by enrolling in 699/799 each fall and spring semester of the academic year.

The only time summer registration is required for dissertation/document/project research is when a doctoral student is graduating in August or defending the dissertation/document/project during the summer semester.

Ph.D. students must complete a minimum of 18 hours of dissertation research credits (699). Ph.D. students must register for a minimum of 3 dissertation research credits each semester until reaching their program's minimum. Thereafter, they must register for a minimum of 1 dissertation hour each semester, maintaining continuous enrollment in 699 until degree completion.

Ed.D. students must complete a minimum of 12 dissertation research credits (699). Ed.D. students must register for a minimum of 3 dissertation research credits each semester until reaching their program's minimum. Thereafter, they must register for a minimum of 1 dissertation hour each semester, maintaining continuous enrollment in 699 until degree completion.

DMA students must complete a minimum of 4 hours of document research (MUS 699). DMA students must register for a minimum of 1 document/project research hour each semester, maintaining continuous enrollment in MUS 699 until degree completion.

DSW Students must complete a minimum of 9 hours of project research (SW 799). DSW students must register for a minimum of 1 document/project research hour each semester, maintaining continuous enrollment in SW 799 until degree completion.

The amount of dissertation/document/project research for which a student enrolls in any given semester should be commensurate with the progress a student is expected to make on the dissertation, as well as reflective of the extent to which University facilities and faculty time are invested in the proposed activities.

Dissertation Committee
The dissertation committee may be formed early in the dissertation research process, or shortly before the dissertation proposal is approved. It is expected that the committee will be formed and approved before significant progress is made on the dissertation. The committee must be formally established via a process initiated by the student and requiring the consent of each committee member, followed by Graduate School review for compliance with the regulations outlined below. Click here for instructions on the process of establishing the committee.

The committee must consist of at least five members. It may have additional (voting or nonvoting) members if deemed appropriate. At least one of the committee members must be from outside the student's major department. These external members may be from another academic department at UA, from other universities, or from industry or the professional field. In all cases, these members external to the department/program must be appointed to UA's Graduate Faculty by the dean of the Graduate School, and must have significant professional qualifications that directly contribute to the depth and rigor of the dissertation.

All members of the dissertation committee must hold Graduate Faculty status at The University of Alabama. The chair of the committee must hold Full Graduate Faculty status; others may be Full, Associate, or Affiliate members of the Graduate Faculty. A majority of the Dissertation Committee members must be full-time regular University of Alabama faculty (that is, full-time instructor, assistant professor, associate professor, or professor).

Dissertation Proposal
The dissertation proposal aims to show the appropriateness, manageability, and significance of the projected research. The student formally presents the written proposal to the dissertation committee and defends it in a meeting with the committee. The proposal normally includes an introduction that provides an overview and states the significance of the proposed research, review of the literature, and methodology. Departments determine the details of the dissertation proposal's format with respect to specifics such as the length of the
introduction and level of detail of the literature review. Once the student and dissertation chair have developed a proposal, and the graduate dean has approved the dissertation committee, the student schedules the dissertation proposal meeting that includes all committee members. The student cannot propose a dissertation and have its final defense in the same semester.

**Dissertation**

A dissertation showing the ability to conduct independent research and skill in organization, writing, and presentation must be prepared on a topic in the major field. It must constitute an original contribution to knowledge. The dissertation must be based upon research completed while the student is enrolled at The University of Alabama.

The subject of the dissertation must be approved by the student’s dissertation committee and by the dean of the Graduate School. The final dissertation may take the form of a traditional, chapter-based document or a series of full-length publication-ready manuscripts which are part of a larger, cohesive body of work. The format (traditional vs. article-style) must be approved by the committee in accordance with the standards for the program and the discipline.

For article-style dissertations, the document must contain a minimum of three articles, in addition to introductory and concluding materials. A single abstract must accompany the document. In addition to an introduction presenting the unifying framework that supports the research, the document must include a concluding section that summarizes the importance of the work, integrates the major findings, and discusses the implications for the overall body of work.

Individual departments may have policies or guidelines related to whether sections of the dissertation may be included if they have been previously published elsewhere. Copyright issues also may arise if sections of the dissertation have been previously published. Therefore, students who are considering the submission of dissertation chapters/articles for publication prior to their dissertation defense should consult with their advisor, and also with potential publication outlets, before submitting any dissertation-related manuscript for publication.

All parts of the dissertation must conform to the provisions set forth in A Student Guide to Preparing Electronic Theses and Dissertations, except when the circumstances of a specific project or discipline's style manual require deviation. Students should email gradschool@ua.edu before beginning their work if they have questions concerning specific problems or deviations from traditional procedure.

The Dean of the Graduate School must approve the dissertation before the student can be cleared for graduation. See “Final Dissertation Submission and Approval” for details.

**Virtual Participation in Committee-Based Exams/Defenses**

All members of a student’s graduate committee are expected to attend and participate, usually in person, in any oral examination as part of the student’s graduate (Master’s or Doctoral) degree program. Traditionally, oral examinations are conducted with the student meeting their committee while gathered in one physical location on campus. However, the need occasionally arises for virtual participation in the oral examination.

If a department or program chooses to allow virtual participation in oral examinations, they must ensure adherence to the following technical requirements. Departments or programs may enforce stricter guidelines than those outlined, including an on-campus-only policy if deemed necessary and appropriate.

**Technical Requirements**

In cases where departments or programs allow any level of virtual participation, from one virtual member to a fully virtual event, they must adhere to the following requirements:

1. Prior to any oral exam, the student and Committee Chair coordinate with other committee members regarding the protocol for the exam.
2. All participants must join using university-adopted videoconferencing tools that allow for fully interactive audio and video communications along with screen-sharing capabilities, which must be maintained throughout the examination and any related discussion.
3. The use of audio-only communications is not permitted.
4. Participation merely by viewing a recording of the oral examination is specifically prohibited.
5. All members of the committee, on- or off-site, must participate in the final evaluation of the examination or defense; provisions must be made to record their votes and collect their signatures as necessary using the digital signature system approved by the Graduate School.
6. The Committee Chair, or another non-student designee, shall be the host of the virtual meeting. A co-host may be assigned so that the event will not be interrupted by technical difficulties. The host should mute all participants (or ask participants to mute themselves) and ask the student to share their screen, if a presentation is involved, in order to make the presentation visible to all attendees. The host must also ensure that appropriate security precautions are taken to prevent the interruption of the event.
7. Following the public portion of the defense, the host shall ask all non-committee members to leave the meeting, or the host may manually remove them. In programs where the defense has both a public and a private portion, the committee may then continue the event as outlined in their program protocols.
8. Once the committee has completed the examination of the student, the host shall place the student into the waiting room (or have the committee members use a breakout room) so the committee can conduct their deliberations in private.

The committee chair must have a secondary videoconferencing system available as a back-up in the case of technical difficulties. Cancellation of the examination should only occur in the case where both the primary and secondary back-up systems fail. If an examination must be rescheduled, it will be done without prejudice to the student. Since committee deliberations are an essential aspect of the examination, completing the examination and final discussion via email or other non-audiovisual means is not an option. If the student or any committee member(s) have a disability that will be impacted by virtual participation, accommodations for participation must be provided.

**Final-Semester Minimum Doctoral Research Hours Registration**

The Catalog section on Continuous Dissertation Registration for Doctoral Students states that once a student qualifies for doctoral candidacy, the student must enroll each semester for at least 3 hours of dissertation (699) research until reaching their department’s minimum requirement and, at least 1 hour for each semester thereafter until degree completion and graduation. If certain conditions are met for the student’s final semester, the student may qualify to enroll for fewer hours of 699 dissertation research. A zero-hour or one-hour 699 registration is permitted only in the final semester# . This exception applies only to students who registered for at least 1-3 hours of dissertation (699) research in the preceding semester and only under the conditions described in the table below.
Dissertation Defense

The candidate should consult with the Dissertation Chair prior to the department or program, the title of the dissertation, an abstract of the dissertation defense. All doctoral candidates must give members of the dissertation committee a minimum of two weeks to read the dissertation. The dissertation defense is the culminating experience in the doctoral program. The Dissertation Chair and the student will coordinate with the Research Review Committee to obtain approval for the planned research. The principal investigator is responsible for contacting the college Human Research Committee to establish a policy for whether the oral defense is public, private, or both. Any changes made to the manuscript after the defense must be approved by the Dissertation Chair. The student must submit the final dissertation to the Graduate School, and the Dean of the Graduate School must approve the dissertation before the student can be cleared for graduation. See “Final Dissertation Submission and Approval” for details.

Protection of Human Subjects for Research

Scientific research involving human subjects has produced substantial benefits for society, but it also has significant ethical questions. The mission of the University’s Institutional Review Board (IRB) for Protection of Human Subjects is to ensure that research involving human subjects is conducted ethically. University and federal policies require that review and approval to use human subjects in research precede the research, no matter how great or small the involvement of the human subjects. In the case of dissertation research that involves the use of human subjects, the principal investigator is responsible for contacting the college Human Research Review Committee to obtain approval for the planned research. The University’s IRB approval form is available at the IRB website.

Dissertation Defense

The dissertation defense is the culminating experience in the doctoral program. The Dissertation Chair and the student will coordinate with all committee members to choose a time, date, and location for the dissertation defense. All doctoral candidates must give members of the dissertation committee a minimum of two weeks to read the dissertation before the defense date. The dissertation must comply with the regulations in A Student Guide to Preparing Electronic Theses and Dissertations, the regulations in the University Academic Calendar.

The dissertation defense is comprised of four parts.

1. Public Advance Notice. A minimum of two weeks prior to the scheduled defense date, the candidate must submit the Public Notice of a Dissertation Defense form. This form includes the name of the candidate, the department or program, the title of the dissertation, an abstract of 200 words or less, and the date, time, and location of the dissertation defense. The candidate should consult with the Dissertation Chair prior to initiating this form. The form will be initiated by the candidate and signed by the Dissertation Chair, Graduate Program Director, and the Graduate School. Upon receipt of the completed form, the Graduate Program Director will ensure the scheduled defense is disseminated within the department. The Graduate School will post the scheduled defense on the Graduate School website.

2. Oral Presentation. An oral presentation of the dissertation is required and shall be public. The content and duration of the oral presentation are at the discretion of the Dissertation Chair, in consultation with the Committee, based on departmental norms, disciplinary standards, and traditions.

3. Oral Defense. This examination phase of the dissertation defense is required and may be public or private. Each department or program shall establish a policy for whether the oral defense is public, private, or both (i.e., has a public portion and a private portion).

4. Committee Deliberation. Committee deliberation is required and shall be private. Upon completion of the oral defense, everyone other than the committee members shall leave the defense location while the committee discusses, deliberates, and votes. For a defense to be successful, the majority of the committee must approve the dissertation and the defense.

The results of the dissertation defense must be reported to the Office of the Graduate School by submitting the Committee Acceptance Form at least six weeks before the Fall/Spring commencement, or five weeks before the Summer commencement, at which the degree is to be conferred. The Committee Acceptance Form, submitted by the department through the UA DocuSign system and found in myBama, confirms that a majority of the dissertation committee has approved the written dissertation and oral defense.

Any changes made to the manuscript after the defense must be approved by the Dissertation Chair. The student must submit the final dissertation to the Graduate School, and the Dean of the Graduate School must approve the dissertation, before the student can be cleared for graduation. See “Final Dissertation Submission and Approval” for details.

Final Dissertation Submission and Approval

Following a successful dissertation defense (see “Dissertation Defense” for details), any edits agreed upon during the defense must be incorporated into the manuscript, and the Dissertation Chair must approve the final manuscript. After a careful review to ensure that the manuscript adheres to the Graduate School’s formatting guidelines, the candidate must submit the approved manuscript to the Graduate School for final approval, address any remaining edits, and initiate the upload process for archiving the manuscript in the national dissertation repository, ProQuest.

The dissertation, in its final form, must be received in the Graduate School within 60 days of the dissertation defense. If this deadline is not met, the Dissertation Chair may require the candidate to schedule a second dissertation defense. Note that this 60-day deadline is separate from the deadlines for degree conferral and participation in Commencement ceremonies.

Graduate School deadlines for each semester, including deadlines for submitting the final manuscript to the Graduate School to graduate at the end of the semester, are available on the Graduate School’s homepage. Consult the Graduate School’s dissertation site for additional details of the electronic submission process, including information on exactly what needs to be submitted to the Graduate School. At the stage of the Graduate School review of the manuscript, additional revisions may be required, to ensure that the final manuscript conforms to all formatting requirements.
and editing standards. The graduate dean must approve the dissertation before the student can be cleared for graduation.

**Application for Graduation**

Each candidate for a doctoral degree must submit an Application for Degree via myBama no later than the last day to register or add a course for the semester (or first term of the summer semester) in which requirements for the degree are to be completed. That specific date is published each semester at the Graduate School’s website under Current Students/Deadlines for Graduate Students.

**Withholding or Withdrawing an Advanced Degree**

The University of Alabama reserves the right to withhold or withdraw an advanced degree on the recommendation of the graduate faculty.
