APPLIED STATISTICS, MS

Begun over 25 years ago, the Master's of Science in Applied Statistics is a highly respected program at the Manderson Graduate School of Business.

Students in the Master's of Science in Applied Statistics program can utilize the Marillyn A. Hewson Data Analytics Lab, taking advantage of cutting-edge technology in a collaborative environment. Students do not need a business degree to earn an MS in Applied Statistics. The Master of Science degree in Applied Statistics is a flexible program, allowing students to structure courses in a manner that complements their career objectives.

Admissions

Candidates for admission to applied statistics are normally expected to have completed courses in mathematics equivalent to three semesters of undergraduate calculus and to have a working knowledge of computer programming and linear or matrix algebra.

In addition to the minimum Graduate School admission requirements, to be considered for regular admission an application must include:

- A resume
- · A GRE score of at least 305 or a GMAT score of at least 500

Students who do not meet these requirements, but who excel in other areas, may be considered for "Admission with Permission to Continue"

Accelerated Master's Program (AMP) students must meet the minimum admission requirements as listed in the AMP section of this catalog.

See the Admission Criteria section of this catalog for more information.
