

SUPPLY CHAIN ANALYTICS, CERTIFICATE

The Supply Chain Analytics (SCA) graduate certificate program provides students with a fundamental understanding of the complex relationships involved in a supply chain and techniques related to their analysis.

The objective of this certificate program is to introduce students to tools, techniques, and methods that aid supply chain professionals in properly identifying, evaluating, and analyzing supply chain issues, which then supports effective decision-making to improve the efficiency and productivity of firms that compose a complex supply chain.

Admissions

To be considered for admission, applicants must hold a bachelor's degree from an accredited college or university. Previous academic history, a letter of recommendation, having earned a B- or higher in a Calculus course, having demonstrated motivation and aptitude to undertake graduate-level work, and professional experience are all taken into consideration.

To apply, you must complete an application and provide transcripts from each undergraduate and graduate academic institution as well as a professional resume, one letter of recommendation from an individual who can assess your readiness for a Master's level certificate program, and a statement of purpose. GMAT or GRE scores are not needed.

Current graduate students may combine their degree with a graduate certificate. Courses completed for the certificate may be applied towards the elective requirements.

Curricular Requirements

- Minimum Required Hours: 12 credit hours
- All 12 credit hours earned in the SCA certificate program may be used directly toward the completion of the MS Operations Management degree program.
- The overlap of the certificate with the associated degree program is intentional as the certificate may serve as a stepping stone to the full degree program for those who are non-degree students. This is a stackable credentials approach to graduate education that offers individuals knowledge advancement and flexibility.

SUPPLY CHAIN ANALYTICS CERT		Hours
Choose either ST 560 OR ST 509		3
ST 560	Statistical Methods	
ST 509	Stat For Business Appl	
Choose either OM 500 OR OM 506		3
OM 500	MGT Science & Spreadsheet Mod
