SPECIAL EDUCATION, PH.D.

The Ph.D. program in the Department of Special Education and Multiple Abilities (SPEMA) is designed around the interests of the student and the expertise of the faculty, and aims to produce a top researcher seeking an appointment in a university or research setting. Before acceptance into the program, the department evaluates whether a student’s interest area matches with an area of faculty expertise. Once accepted, students work with the Plan of Study committee (POS) to shape their course of study. The POS is made up of faculty, including the student’s advisor. Many interests related to special education field can be accommodated, including subfields related to autism spectrum disorders, behavior disorders and prevention, early childhood special education, early intervention, gifted and talented, non-categorical special education, severe disabilities, and transitions.

Admissions

In addition to the minimum Graduate School admission requirements, to be considered for regular admission an application must include:

- A recent (within the last five years) GRE score of 300 or higher.
- An earned MA degree in special education (or a related area) with an accomplished scholarly record at the master’s level
- Three years of appropriate experience (defined as three years of work in agencies serving children and youth, one year of which must have been spent in direct, full-time interaction with exceptional children)
- A demonstrated commitment to a scholarly career in special education
- A successful presentation to the department
- A successful interview process with faculty members.

Graduate faculty members individually evaluate and collectively discuss admission applications.

See the Admission Criteria section of this catalog for more information.

Curricular Requirements

A minimum of 72 semester credit hours beyond the master’s degree is required for completion of the Ph.D. program, but highly recommended additional research courses would extend the hours to 78. These 72 hours consist of the following courses: 24 hours of special education courses; 12 hours of educational foundations courses; 12 hours of research courses; and 24 dissertation hours.
