COURSES FOR HUMAN NUTRITION AND HOSPITALITY MANAGEMENT

Human Nutrition and Hospitality Management Courses

**NHM509 Research Methods in Nutrition**
Hours 3
This course is an introduction to scientific methods appropriate for nutrition research. Approaches to designing, conducting, and evaluating nutrition research are discussed along with strategies for applying research into practice.

**NHM530 Advanced Nutrition Counseling**
Hours 3
Focuses on advanced skills in nutrition counseling that incorporates behavioral theory and motivational interviewing.

**NHM550 Advanced Community Nutrition I**
Hours 3
Focuses on principles, problems, and programs in community nutrition with an emphasis on community needs assessment.
Prerequisite(s): None.

**NHM551 Advanced Community Nutrition II**
Hours 3
Explores the techniques and strategies used in community nutrition; focuses on facilitation of community interventions, development of community partnerships and collaborative programs.
Prerequisite(s): NHM 550

**NHM555 Maternal and Infant Nutrition**
Hours 3
This course will focus on the scientific evidence that supports nutrition recommendations that result in optimal health for mothers and their infants. Methods of assessing nutritional status are included. The impact of insecurity and obesity on the nutritional status of mothers and their infants will be discussed.

**NHM556 Child and Adolescent Nutrition**
Hours 3
Discussion of the scientific evidence that supports nutrition recommendations that result in optimal health for young children and adolescents. Explores determinants of nutritional status and public health strategies for prevention of prevalent nutritional concerns.
Prerequisite(s): NHM 555

**NHM557 Childhood Obesity**
Hours 3
Focuses on the physiological, genetic, environmental, and behavioral factors that predispose children and adolescents to obesity; explores the clinical and public health strategies for treatment and prevention.

**NHM558 Nutrition in the Prevention and Treatment of Chronic Disease**
Hours 3
Evidence-based solutions in the prevention and treatment of the most prevalent nutrition-related chronic diseases are discussed. Current research is translated into health promotion and disease prevention strategies and plans.

**NHM561 Advanced Vitamins and Minerals Metabolism**
Hours 3
Lectures and reports on the physiological functions, metabolism, and interpretation of current research in vitamins and minerals.

**NHM562 Metabolism of Energy Nutrients**
Hours 3
In-depth discussion of carbohydrates, lipids, and protein metabolism. Discussion and interpretation of recently published research in peer-reviewed journals.

**NHM564 Nutrition in Interprofessional Practice**
Hours 1
The focus of this course is to prepare clinicians to work in interprofessional practice teams to meet the complex and multidimensional needs of Veterans and rural populations, with a special emphasis on the effects of multiple chronic conditions.
Prerequisite(s): NHM 566, NHM 567, or other similar MNT-oriented advanced course, RD status preferred. Admission by permission of Instructor only.

**NHM565 ID Mgmt of Chronic Disease**
Hours 2
The focus of this course is to train clinicians to work in interprofessional practice teams to meet the complex and multidimensional needs of patients with multiple chronic conditions living in rural areas. Instructor permission only.
Prerequisite(s): NHM 564

**NHM566 Adv Clinical Nutrition**
Hours 3
Critical review of the physiological basis for nutritional management in the prevention and/or treatment of diseases of the cardiovascular, gastrointestinal, endocrine, hepatic, and renal systems.

**NHM567 Nutr Support Criticl Ill**
Hours 3
Methods of assessing nutritional requirements of the critically ill patient and of delivering and monitoring enteral and parenteral nutrition are presented.

**NHM568 Nutrition for the Older Adult**
Hours 3
Methods of assessing nutritional requirements and a review of nutrition and disease topics specifically relevant to the care of the older adult.
NHM585 Clinical Nutrition Management
Hours 3
This course covers management principles for nutrition professionals who plan, coordinate, and manage the work operations of the clinical nutrition staff in healthcare facilities.

NHM587 Integrat Food System Mgt
Hours 3
Current problems in food systems management are presented, with emphasis on theories of management and integration of management functions.

NHM588 Advanced Food Service Systems Management
Hours 3
This course covers foodservice organizational theory and leadership principles for nutrition professionals who oversee and direct the distribution of food, manage human and financial resources, and maintain quality control in quantity food service systems.

NHM590 Special Prob Nutrition
Hours 1-6
Instructor permission required.
Prerequisite(s): Instructor permission required.

NHM591 Spec Prob Food Science
Hours 3-6
No description available

NHM598 Non-Thesis Research
Hours 3
Experimental or analytical investigation of a food or nutrition-related issue. This course may be the capstone experience for the masters degree under Plan II and should be the last course the student takes prior to graduating.

NHM599 Thesis Research
Hours 1-6
Faculty mentored development of graduate thesis research.

NHM601 Contemporary Research in Translational Nutrition Science
Hours 3
This course will explore two fast-developing topics in the field of nutrition science: nutrigenomics and the gut microbiome. Students will become familiar with core concepts related to these areas in order to critically evaluate emerging research related to both.

NHM602 Methods in Integrative Nutrition Assessment
Hours 3
Analytical methodologies routine to nutrition assessments are discussed and implemented in accordance with standard research protocols in a lab setting.

NHM603 Nutrition Intervention
Hours 3
This course focuses on developing competence in the planning, design, and execution of randomized clinical trials involving nutrition-focused behavioral interventions.

NHM605 Critical Analysis of Primary Literature in Translational Nutrition Research
Hours 3
Course focus is on interpretation and evaluation of translational research in nutrition.

NHM610 Nutrition and Health Disparities
Hours 3
This course is designed to explore health disparities in minority populations, societal factors that impact their health and dietary intake, the differing needs and metabolism of nutrients by population, and educational techniques and healthcare management strategies to maximize the nutritional health of minority populations.

NHM611 Nutritional Neuroscience
Hours 3
This course teaches the molecular mechanisms at work in brain cells, and how intracellular events influence physiological and pathological processes in the brain. This course also covers the relationship between nutrients and neurological disorders and the various nutritional approaches to improve brain function will be discussed using recent publications.

NHM625 Nutritional Epidemiology
Hours 3
This course is intended for graduate students in health-related professions. Principles of epidemiology are discussed and their application to nutrition. This course provides information on research methods to assess exposure through collection of dietary and biological data, evaluate quality of these data, conduct appropriate analyses, and draw valid conclusions.

NHM635 Adv Prac. in Post Sec. Diet Ed
Hours 3
Focuses on developing Competency in Learning system design, with special emphasis on dietetics education at the college level.

NHM648 Secondary Analysis Survey Data
Hours 3
An applied seminar in the secondary analysis of survey data.

NHM690 Doctoral Studies Seminar
Hours 1
The purpose of this course is to provide doctoral students with information and skills needed for successful doctoral study and an independent research career.

NHM691 Grant Writing for Translational Nutrition Research
Hours 3
Grant writing for translational nutrition research aimed at extending healthy life and reducing the burdens of chronic disease.

NHM692 Special Topics in Nutrition
Hours 3
In-depth understanding of sub-disciplines of food and nutrition that are fundamentals of nutritional sciences and the basic research philosophy of structure-function relationships in food and nutrition research.
NHM695 Interpretation of Nutrition Research  
Hours 3  
This course covers research methodology in nutrition research, and the evaluation of current nutrition research through the systematic review process.

NHM698 Non-Dissertation Research  
Hours 1-15  
Participation in a cooperative faculty-student research project related to nutrition or food science.

NHM699 Dissertation Research  
Hours 1-12  
Design, research, and/or analytical investigation of a problem in the area of nutrition to satisfy the dissertation requirement for the doctoral degree.

**Restaurant, Hotel and Meetings Management Courses**

**RHM500 Sport Management Principles and Practices**  
Hours 3  
This course focuses on management theories and practices required to successfully manage sport organizations in a variety of different settings.

**RHM521 Hospitality Law and Risk Management**  
Hours 3  
Exploration of legal problems facing the hospitality industry. Legal cases related to restaurants, hotels, and meeting facilities are examined. Concerns and problem-solving for issues of risk management are explored.

**RHM551 Sport Properties and Venue Management**  
Hours 3  
This course is designed for the sport professional to increase their knowledge and understanding of principles and practices associated with managing a public assembly venue and the nature of the venue business.

**RHM552 Trends and Issues in Sports Business Management**  
Hours 3  
This course is designed for sport professionals desiring to increase their knowledge and understanding of trends and issues in international sport programs. Being a travel class to the United States Olympic Committee headquarters in Colorado Spring, a travel fee is required.

**RHM555 Sports Sales and Entrepreneurship**  
Hours 3  
This course is designed for sport professionals desiring to increase their knowledge and understanding of sports sales and entrepreneurship in the sport industry.

**RHM559 International Strategies in Sports**  
Hours 3  
This course is designed for sport professionals desiring to increase their knowledge & understanding of management & administration issues in the international sport industry.

**RHM560 Fellowship in Sports Business Management**  
Hours 3  
This course is designed for sport professionals desiring to increase their knowledge & understanding of the sport industry. Under the supervision of an approved and qualified sports industry professional, the graduate student will experience activities related to job specific tasks in sports and hospitality. This full-time work experience/fellowship in the sport industry must take place in a professional organization, in which the student has been selected and offered a fellowship.

**RHM561 Marketing, Sales & Public Relations in Sports**  
W  
Hours 3  
This course is designed for sport professionals desiring to increase their knowledge & understanding of marketing, sales, and public relations in the sport industry.

**RHM570 Leaders Mgt Hospitality Indust**  
Hours 3  
An examination of contemporary leadership and management theories and practices used in the hospitality industry.

**RHM575 Sport and Hospitality Financial Management**  
Hours 3  
This course will focus on the application of financial management tools used to assist managers in the sport and hospitality industries. Financial concepts will be examined as they relate to management decision making. Emphasis will be on interpreting financial data and communicating results to operation managers. Students should have completed an undergraduate course in Accounting or Finance prior to registering for this course.

**RHM576 Strategic Management in Hospitality and Tourism**  
W  
Hours 3  
Formulation, development, and implementation of strategic management in the hospitality and tourism industry.  
Prerequisite(s): None  
Writing

**RHM580 Consumer Behavior in the Hospitality & Tourism**  
Hours 3  
In the hospitality industry, consumer behavior acts as a foundation for companies’ strategies and plans. This course aims to explore how various factors influence consumer behavior and their decision-making process in the hospitality industry.

**RHM588 Current Trends Food System Mgt**  
Hours 3  
An exploration of a variety of issues of importance to effective management of food service operations. Topics vary to meet students’ interests and issues facing the food service industry.

**RHM592 Special Topics in RHM**  
Hours 3-6  
Problems related to the operations of hospitality organizations such as hotel, restaurants, clubs and conventions and meeting management facilities.
RHM593 Special Problems in Sports Business Management
Hours 3
Under the supervision of an approved and qualified sport management professional, the graduate student will experience activities related to job specific tasks in the sports industry. This work experience must take place in a professional organization, in which the student has been selected and offered a fellowship. The professional experiences and fellowships aid the graduate student in expanding their management knowledge and skills in a variety of sport industry settings. These settings include sport, hospitality, tourism, athletics, and entertainment operations. The keys to “Success in the Sport Industry” are a committed investment in quality professional experiences, advanced level knowledge and ability to connect the theory to practice.

RHM596 Seminar Hospitality Management
Hours 3
Discussion, reading, and exploration of operational issues related to the hospitality industry.

RHM598 Non-Thesis Research
Hours 3
Experimental or analytical investigation of a topic in restaurant, hotel, or meeting management.
Prerequisite(s): HES 509

RHM599 Thesis Research
Hours 1-6
Faculty-mentored development of graduate thesis research.
Prerequisite(s): HES 509
