

# ETHICS, MINOR

---

This program of study will introduce students to general philosophical approaches for thinking more clearly and critically about ethical questions: What should we do in particular situations? What ethical principles should govern our actions? What justifies our actions and ethical principles? What does science tell us about ethics? Students can also learn how to analyze and respond to ethical questions and problems in specialized contexts: business, medicine, governance, the law, the arts, and even sports.

<b>Ethics Minor</b>	<b>Hours</b>
<b>Required Courses</b>	<b>3</b>
PHL 292 or Introduction to Ethics
