

RISK MANAGEMENT & INSURANCE MINOR

The Risk Management & Insurance (RMI) minor prepares students to examine and explore solutions to managing risk. Risk affects the bottom line of businesses of all types and sizes. Students learn to identify, measure, and manage risk through a variety of mechanisms, with insurance representing one major component. They are trained for careers in the risk and insurance industry, to include underwriting, claims, brokerage, corporate risk management, sales, and customer service. Culverhouse has been designated as a Global Center of Insurance Excellence, and ranks among the top schools in the world for students seeking a career in risk management and insurance.
