ELECTRICAL ENGINEERING, MINOR

A student who is not a major in electrical engineering or the computer engineering option can earn a B.S. minor in electrical engineering by completing the following requirements:

• The student must complete 18 hours of ECE designated courses at the 200-level or above.
• A letter grade of a “C-” or higher is required in all coursework for the EE minor.
• All prerequisites for ECE courses are required to be met.
• At least 50% of the coursework required for the EE minor must be taken on the UA campus.

A student should apply for the EE minor prior to achieving senior standing in order to have sufficient time to complete all requirements. A student indicates his/her intent for the EE minor by completing the necessary steps online (DegreeWorks). Interested students may find that several of these ECE courses meet his/her department’s required or technical electives options.
